ANSUL FORMALDEHYDE DUST CONTROLS DAMPING OFF

Tomato seedlings growing in untreated soil.

Tomato seedlings in Ansul Formaldehyde Dust treated soil.

Directions with Each Package

Directions with each package:—1 lb. 60c., 5 lbs. \$1.75, Postpaid. 25 lbs. \$4.50, 50 lbs. \$6.50, Freight not paid.

GOLDEN GLEAM DOUBLE NASTURTIUM

The plant forms a vigorous large bush which throws out short runners averaging eighteen inches. The flowers commence to come as soon as the plant nears complete development and the time it is in full bloom the entire plant, including the runners, is a blaze of color. The large, golden-yellow flowers average two and one-half to three inches in length. Consequently the flowers stand well above the foliage, an arrangement which adds immeasurably to the showy appearance of the plant. An ordinary sized bouquet when allowed to remain in a room for a short period of time will fill the room with fragrance. Double scented Golden Gleam Nasturtium is of the semi-trailing type. Price per pkt. 25c., 3 pkts. 65.

JAPANESE MUSTARD SPINACH

Introduced into America recently as a most wonderful tender green, excellent for table use. Has a delicious flavor of spinach, mustard and turnip greens combined. Important daily food of the Japanese. Superior to spinach, mustard, turnip greens and Kale in flavor. Is suitable for canning. Culture similar to that of spinach, lettuce and mustard. A quick growing plant ready for table or market in 3 to 4 weeks. You can produce 9 crops a year. May be planted every month the year round in southern localities. Will stand extreme weather better than most plants grow in hot summer months and late fall.

One ounce of seed will plant 50 feet of row; 5 to 6 lbs. of seed per acre in drills two feet apart. A row 100 feet long will grow 40 to 50 bundles. Price per pkt. 10c.; oz. 20c., ¼ lb. 50c., 1 lb. \$1.50 Postpaid.

"GOOD FOR ALL" BEET

Shows very definite advantages as a canning and pickling beet. The roots are very smooth and refined and very even in size and shape, which is almost perfectly globular. Desirable for canning whole at 1¼ to 1½ inches diameter. (See illustration.) The collar or neck is very small due to the very slender petioles. The tap root is slender and the root pinches closely at the base of the tap root, giving the entire bulb a very neat and clean appearance. The skin is smooth and very dark red. The interior color is a fine deep crimson vermilion. Flesh has close texture and is very free from zones and prominent growth rings. If allowed to stand, the same roots will reach a size up to 4 inches diameter, still retaining excellent quality and color. Price per pkt. 10c, 1 oz. 25c., ¼ lb. 75c., 1 lb. \$2.50.

Here's a positive WEED KILLER — guaranteed to RID YOUR LAWN of dandelions, buckhorn and plantain in 24 hours.

WEED-TOX does not harm rest of Lawn.

Easily and quickly applied without injury to grass or to other desirable vegetation. One application is usually sufficient. One dollar bottle is enough for the average lawn. Sent complete with applicator; ready to use, no mixing, no fixing, no sprayer, nothing else to buy.

WEED-TOX cannot be sent by parcel post. \$1.00 per bottle, by express, not prepaid. If you want it by prepaid express, send 35 cents extra.

Knobby Leviathan Squash

Large, oval, orange red, densely covered with large warts or knobs, quality excellent, a long keeper. Introducer claims the quality surpasses the Hubbard. Price per pkt. 15c.

FULL-HEARTED ENDIVE (Escarolle)

The Full-Hearted closely resembles the Broad-leaved Batavian, with broad and thick leaves, twisted and waved, with round ends, and of a bright deep green, with nearly white midrib. The head, however, is more compact and is full, blanching easily to a creamy white. Oz. 25c., ¼ lb. 60c., 1 lb. \$1.65.

CHINESE CABBAGE

"PEKING" PE-TSAI

As a cabbage in a class by itself. Habit of growth resembles a cos-lettuce when outer leaves are removed we have a lettuce and cabbage combined. Served raw or with dressing its superior to a cabbage slaw—tender and appetizing—a wonderful greed feed for poultry. In China they grow 3 tons in a space 40 x 60 feet. If given room grows 20 inches tall, 10 to 12 inches in diameter and to weigh 15 lbs. Price per pkt. 10c, ½ oz. 30c., 1 oz. 50c., ¼ lb. \$1.75, postpaid.

SHORT THICK PARSNIP

This attractive little parsnip makes a fine garden and bunch vegetable. The tops are only about half the size of ordinary Hollow Crown. The roots are short and thick, reaching a diameter of 2½ to 3½ inches and a length of only 6 or 8 inches at the thickened part, making it easy to pull. The roots are full crowned and rounded on top with a small neck, giving them a very smooth and attractive appearance. This variety is very early, fully a month earlier than Hollow Crown, and often reaches full size in 100 days from planting time. The roots fill out at an early stage and can be pulled for home use long before they reach full maturity. The quality is excellent. Texture is good and the roots are free from strings or woody fiber. The flavor is much more delicate than the larger varieties and will appeal to many people who ordinarily do not care for parsnips. Price per pkt. 10c., 1 oz. 25c., ¼ lb. 65c., 1 lb. \$1.50.

Comparison — Short Thick Shoulder at bottom. Hollow Crown at top,

* Start in hot-bed and transplant.

† Plant Beans in hills 3 feet apart and Golden Bantum Corn between the hills. Radish may be planted between the rows of beet, carrot, lettuce as they grow quickly.

Manure heavy and see that the crop has plenty of moisture.

Fertilizer use 2/5 cord of manure plowed under and 40 pounds fertilizer raked in just before sowing seed.

Corn may be planted between the hills of melons.

SEVENTY-EIGHTH ANNIVERSARY

1856 GREGORY'S HONEST SEED 1934

WHETHER you are a banker, manufacturer, store keeper, a mechanic or laborer you must think seriously before you make a move. There has been a great deal of serious thinking during these past few years. Forced economy has been the rule.

We are told to "Start Spending": How can the average man spend unless he has work?

The Farmer is the main stay of the country and needs all the help we can give him; let him stop production, how long would we exist?

The President is doing his best in trying to direct us, and it is up to us to help him in every way possible. We feel that old man depression is on his last legs and ready to be counted out. What we most need is complete confidence in one another and work — which will bring the desired results.

How can Merchants keep on if we do not buy? So buy now as it is vital to our future welfare. In what other way too can we better our conditions? We must get back to the soil. If you have a garden you can raise sufficient vegetables to keep your family in food a long time; any surplus not consumed from day to day should be canned for the winter.

Is there any better game than gardening? It takes one into the open air and cheerful sunlight: you get exercise and the satisfaction that you have done something worth while: it produces a definite goal for which to strive, and your score will be the number of days in which you supply the family table with delicious eatables. A perfect score is 365, one for each day in the year. Now the quality depends upon the seed planted. Reliable seed sown in a rich well-tilled soil is half grown.

Gregory's Honest Seed with 78 successful years back of them produce vegetables of quality surpassed by none; and quality vegetables always give extreme pleasure when placed on the family table; and too, a well planted garden effects a big savings in the family budget. No garden is complete without a section devoted to flowers, to enable you to make the best selection of choice varieties without cost, we are following a custom started in 1932 in giving away our newer introductions

GREGORY'S FREE FLOWER SEED OFFER

If your order for vegetable and flower seed amount to \$2.50, you may select one packet each of any five varieties illustrated on fourth page of cover and described on third cover page.

If your order for vegetable and flower seed amounts to \$5.00 or over, you may select one package each of the ten varieties illustrated on fourth page of cover and described on third cover page.

You can assist us by calling this offer to the attention of your friends.

GREGORY'S GUARANTEE

- 1st. That all seeds shall reach our customer in good condition.
- 2d. We guarantee the vitality and purity of our seeds to the full amount of the purchase price. Your money back within one year if you are not satisfied with results.
- 3d. It is agreed that in no case shall J. J. H. Gregory & Son be liable for more than the purchase price of the seed.

Very sincerely yours,

J. J. H. GREGORY & SON

DIRECTIONS HOW TO ORDER AND OUR WARRANTY

GREGORY PAYS THE FREIGHT

On all Vegetable and Flower Seeds listed in this catalogue to all points in the United States, East of the Mississippi. We also deliver all LAWN GRASS SEED MIXTURES.

Items that we do not deliver free we ship by express or freight not prepaid. If these items are wanted by mail, please include postage at zone rates. In making this free delivery offer we reserve the right to ship goods by Parcel Post, Express or Freight.

SIGN YOUR NAME TO ALL ORDERS AND LETTERS

Order by number as well as name.

PAYMENT FOR SEED. Cash should accompany all orders. We would advise our customers not to order their seed C.O.D. as you have to pay the cost of collection and return charges.

GREGORY'S GUARANTEE

1st. That all seeds shall reach our customers in good condition.

2nd. We guarantee the vitality and purity of our seeds to the full amount of the purchase price, your money back within one year if you are not satisfied with the results.

3rd. It is agreed that in no case shall J. J. H. Gregory & Son, be liable for more than the purchase price of the seed.

Most of the failures with seeds, plants and bulbs are due to causes entirely beyond our control, such as unfavorable weather or soil conditions; too deep or too shallow planting, fertilizer allowed to come in contact with the small rootlets, etc.

It must be plain to everyone who gives this matter the slightest thought that it is to our best interests to send out only such stock as will not only grow but prove true to name and description.

WE ARE RESPONSIBLE FOR all money sent for seeds over one dollar, if sent by Post Office Order on Marblehead, Express Money Order, Registered Letter, Draft or Cashier's Check.

ALL SEEDS ARE TESTED for germination and must come up to our critical standard of Honest Seeds or they are not sent out.

Prices subject to change without notice.

NEW AND SPECIAL VARIETIES IN VEGETABLES FOR 1933

Each year more and more planters are beginning to realize that it pays to try "new" things rather than to be satisfied with so-called old standbys. Great improvements are being made by conscientious plant breeders on nearly all standard varieties of vegetables and flowers. We test

nearly all of them, and those which we recognize as being distinct improvements over old sorts or strains are offered to our customers in the following pages. We would not offer them to you if we did not feel confident that they would please you, as well as prove profitable to you.

Whipple's Giant Golden Sweet Corn

This new corn is the result of crossing the Golden Bantam with the Whipple's Early White. Mr. Whipple has been working on this variety for about ten years, saving only the earliest well filled ears with the greatest number of rows, and discarding any kernels showing the least bit white. Planting from these selections, year after year the Originator has finally produced the Whipple's Giant Golden a new variety bearing two ears to a stalk with from 16 to 24 rows of kernels to the ear. This new variety has the flavor of the true Golden Bantam, and is earlier than many strains of corn bearing the name of Golden Bantam but which are not true to type, the ears are of such size that 38 fill a bushel box.

Price Pkt. 10c., $\frac{1}{2}$ lb. 25c., lb. 40c., 2 lbs. 70c., 6 lbs. \$1.65, 12 lbs. \$2.50, 100 lbs. \$16.00, postpaid.

BROCCOLI CALABRESE IMPROVED GREEN

Introduced into this country by Italian gardeners. Broccoli has become very popular on account of its tender shoots of delicious flavor, for its healthful obesity reducing qualities. Grows about two feet tall branching in habit each branch terminating in a green sprout.

When the green sprouts are a mass of flower buds two to three inches across and before the flowers appear they are ready to use. Sprouts if kept cut will be replaced by other for 8 to 10 weeks. Cooked and served like cauliflower. Many prefer it to cauliflower. Price: Pkt. 10c., $\frac{1}{2}$ oz. 65c., 1 oz. \$1.00, postpaid.

J. E. THURBER, BARRE, VT., writes:—For the past three years I conducted a small market garden and feel that my success is due largely to the use of your seed. My vegetables are of a finer quality than those produced by my neighbors who used a different brand of seed.

Whipples Giant Golden Sweet Corn

Pkt. 10c., ½ oz. \$1.00, 1 oz. \$1.75.

When ordering, state kind of seed.

A long stump rooted variety 8 to 9 inches long, very uniform, deep red color and a big cropper. An excellent variety to store for winter use. Pkg. 10c., oz. 25c., $\frac{1}{4}$ lb. 75 c., lb. \$2.50, postpaid.

A long, cylindrical object, possibly a piece of wood or a tool handle, with a textured, woven surface. The object is oriented horizontally and shows a dense, cross-hatched pattern, suggesting it might be made of woven reeds or a similar material. The lighting is soft, highlighting the texture and the slight tapering of the object.

PERFECTION CORELESS CARROT

Seeds were sown in the greenhouse. April 15, transplanted into two-inch pots and carried along in a hotbed until the weather was suitable for setting out. The first ripe fruit was picked July 28, 104 days from the sowing of the seed. Had the plants been forced, they would have borne in less than 100 days.

Pkt. 15c., $\frac{1}{4}$ oz. 75c., $\frac{1}{2}$ oz. \$1.35.

This is a pure line selection of the Dwarf Golden Self Blanching type which emphasizes the good points of that variety and eliminates the faults. The plants are **heavy**, very compact, and full hearted. Plants grow 22 to 23 inches high. The stems are broad, very thick, and rounded at the edges, and the edible portion is 7 to 8 inches long. The stems are free from strings and blanch easily to an attractive deep clear yellow. The hearts are full and crisp, and the heart leaves blanch evenly to a deep golden yellow entirely free from quality of the variety will make Golden Detroit a great favorite with market growers, shippers, home gardeners and consumers.

Pkt. 10c., $\frac{1}{2}$ oz. \$1.00, 1 oz. \$1.75, 2 oz. \$3.00.

October 18, 1928

Every Gregory Tomato plant you sent me turned out fine. I want some of the same seed next year. Took first prize at the Grange Fair, they sure were a handsome sight, the Judges said there is no need of a second look. It speaks good for the Gregory Tomato. Have had Gregory's seed for 35 years; keep up the good name.

Hudson, N. Y.

W. J. LEACH.
January 13, 1929

The Gregory tomato we bought of you last year proved remarkably early and I desire to try it again in our garden work at the N. Y. Training School for Girls.

T. COHLMEN FURNAS,
Florist and Supervisor of Grounds.

early, roots half long, coreless with stump end, small top and fine tap root. Pkt. 10c., oz. 25c., $\frac{1}{4}$ lb. 75c., lb. \$2.50, postpaid.

**Spray Tomatoes with
Pyrox. Page 48**

Coreless Forcing Carrot

This Beautiful Lawn can be duplicated if you use Gregory's Lawn Grasses

In making a lawn, much future trouble will be avoided if the preparatory work is carefully and thoroughly done. It is very essential that you have a good depth of surface soil and proper drainage. There should be no less than a foot in depth of good loam, two feet would be better; if the soil is of a sandy nature the grass is apt to burn out in hot, dry weather.

The seed may be sown with success at any time, from April to August, though the best time is during April and May. When your land is ready to receive the seed select a time when the weather is calm. If planted on a windy

day the seed would scatter so unevenly the results would be very unsatisfactory. Just as soon as the grass gets started nicely, and it is 3 to 4 in. tall, run the lawn mower over it, being careful not to cut too close. Continue the mowings at intervals of about ten days. When the lawn is well established, frequent rollings are beneficial, especially in the spring. Sheep Manure (see page 31) makes an excellent fertilizer for lawns. Use at the rate of 100 pounds to every 1,000 square feet. To stimulate the growth of grass of an old lawn use 1 pound to every 30 square feet; should be applied two or three times during the season. Apply just before watering and keep moist for several days.

GREGORY'S SPECIAL LAWN GRASS SEED

We only handle one grade — THE BEST

One pound will sow a space 10 x 20 feet (200 square feet); 150 to 200 pounds is sufficient to sow one acre.

Our mixture cannot be surpassed by any lawn seed sold in this country. We purchase only the purest and very best of the fancy recleaned grades, make our own mixture from a formula that we have found, after years of experimenting, to give the best results under all circumstances. We use those varieties that make the closest and finest turf and which will stand hot and dry weather. Price per lb., postpaid, 45c., 5 lbs. \$1.75, 10 lbs. \$3.00, 20 lbs. \$6.00, freight paid.

FOR SHADY SPOTS

Everyone knows that it is difficult to secure satisfactory growth under trees or in the shade of buildings. Our Lawn Grass for Shady Spots contains grasses best adapted for such places. It will produce an abundant and even growth of beautiful green grass. You have heard of the "Sosis Shoe" that is so well advertised. Mr. Little's gardener tells us that our grass seed has given them the best of satisfaction for years. He can find nothing that does so well in shady spots as does our "Lawn Grass for Shady Spots." The Lynn Telegram, in one of its issues, stated that Mr. Little's lawn was one of the finest in the country. Price per lb. 50c., postpaid; 5 lbs. \$2.35, 10 lbs. \$4.30, 20 lbs. \$7.50.

Our Lawn Mixtures are all made from Recleaned Fancy Grasses

Prices on Lawn Grass subject to change without notice.

WHITE DUTCH LAWN CLOVER

Splendid for sowing among grass on lawns and other places where a thick, quick growth is desired, especially adapted for seashore lawns. Use 1 oz. to each 2 lbs. of grass seed. Per oz. 10c., ¼ lb. 20c., ½ lb. 35c., 1 lb. 65c.

GREGORY'S GOLF COURSE MIXTURE

We use short growing deep rooting fine bladed varieties which will withstand frequent close cutting, heavy tramping and resist wear. Per lb. 50c., 5 lbs. \$2.25, 10 lbs. \$4.00, postpaid. 25 lbs. \$7.50. 50 lbs. \$15.00, 100 lbs. \$28.00. By freight, prepaid.

KENTUCKY BLUE GRASS.

1291 Grows very luxuriantly producing excellent food for cattle. One of the most valuable grasses used in lawn mixtures. Price: lb. 35c., 5 lbs. \$1.50, postpaid.

RED TOP (FANCY RECLEANED)

1246 Used extensively as a permanent grass, one of the best for cattle feeding. Valuable for wet soils. When postpaid; 9 lbs. \$1.75, 36 lbs. \$6.50, freight paid.

General List of Gregory's Honest Seeds

We pay postage on all quantities up to and including two pounds at postpaid prices. We prepay freight except when noted.
(Prices subject to change without notice.)

ASPARAGUS SEED AND ROOTS

Strong, One Year Old Roots, Giant Rust Proof. Mary Washington. 50 roots \$1.30 postpaid, 100 roots, \$2.30, postpaid, 1000 roots by freight, prepaid \$15.00

CULTURE — Sow the seed in the seed-bed late in the fall or in the early spring as soon as the ground can be worked, in drills 1 foot apart, covering the seed about 1 inch deep. Thin the plants to 3 inches in the row. The roots may be removed to the permanent bed when one or two years old.

The months of April and May are the best months to undertake new plantings of Asparagus. Success depends more on location, condition and preparation of the land than it does on the variety. Select land that lies somewhat low, but is well drained and not subject to overflow after heavy rains or spring thaws. Land naturally sandy is preferred to soggy and heavy clay. Ten cords of stable manure well ploughed under and thoroughly mixed with the soil is ample per acre. Land should be ploughed deep and thoroughly pulverized. Make

**Mary Washington
Asparagus**

the furrows 4 feet apart and set the roots 1 foot apart in the row. The crowns of the plants should be set so that they will be at least 4 inches under the surface of the land when level. The top of the plant should rest on a little cone of soil.

Experienced asparagus growers claim that one year roots give the best results; where one expects a bed to last many years it is essential that they start right.

GIANT RUST PROOF, MARY WASHINGTON

15 Experiments were carried on for the purpose of breeding a rust-resistant strain of asparagus. The result is a strong, vigorous growing variety with very strong rust proof characteristics. Pkt. 15c., oz. 25c., ¼ lb. 60c., 1 lb. \$1.50

NICHOLAS FROST, LACONIA, N. H., writes:—Every seed I planted last spring was from your house and I think every seed gave an account of itself. The result has been very satisfactory to me. I do not know whether you make any claim that your Gregory's Surprise and Gregory's Excelsior Peas are free from blight, but while all about here the pea vines were attacked, mine had no blight and yielded abundantly. My squash vines promise a good yield of marketable squashes, some of them very large. In my tract of Dunlaps Marrows there are several that measure 50 inches and still growing.

BEANS

DWARF, SNAP or BUSH — GREEN PODDED SORTS

ONE PACKET CONTAINS ABOUT 150 SEED AND WILL PLANT 25 FEET OF ROW

WE PAY POSTAGE ON BEANS EXCEPT WHEN OTHERWISE NOTED

CULTURE. Select light, warm soil, and plant when danger from frost is past in the spring, in drills 2½ to 3 feet apart, dropping the beans about 2 inches apart in the drill, and covering 1 inch deep. To obtain a continuous supply of beans make plantings every two weeks from May 1 until the middle of August. Keep the ground clean and loose by frequent hoeing, but do not draw the earth around the plants. Avoid working among the vines when they are wet, as it will tend to make them rust. Two pounds to 150 feet of drill. To prevent rust and destroy insects spray with "Pyrox" and use a Sprayer. (SEE PAGES DESCRIBING INSECTICIDES AND IMPLEMENTS.)

BOUNTIFUL GREEN

30 42 days. A tremendous cropper, the finest flat, Green-podded Bean yet introduced. Planted May 29, commenced picking July 18, securing 4 quarts from 10 feet of row. Extremely early, entirely stringless and of superior quality.

LOW'S CHAMPION

40 50 days. This green-podded Bush Bean resembles the Warren. Being entirely stringless it is extremely tender and of exquisite flavor as a string Bean. The pods contain from five to eight beans each; used extensively for canning. A favorite on account of its rust-resisting qualities.

BURPEE'S STRINGLESS GREEN POD

45 42 days. Remarkably early, pods and beans large. The earliest round-podded green bush Bean, bearing larger pods than those of Red Valentine.

GIANT STRINGLESS GREEN POD

50 45 days. The plants are of strong growth, very productive, pods 5 inches long, light green, slightly curved, very meaty, being broadly rounded, saddle-backed and absolutely stringless.

TENDERGREEN

55 Delicious, tender, fine flavored stringless, early. Pods long (6 inches) round as a pencil, very meaty and of light green color. An excellent cropper.

FULL MEASURE

60 Round thick pods, prolific, medium, early, fine quality. Continues in bearing a long time—stringless, excellent for home garden.

EXTRA EARLY REFUGEE, (1000 TO 1)

65 42 days. Round Pod ten days earlier than its late brother. Hardy and very prolific green pod.

Prices for any of the above varieties: Pkt. 10c., ½ lb. 25c., 1 lb. 35c., 2 lbs. 65c., postpaid; by freight, prepaid, 5 lbs. \$1.25, 10 lbs. \$2.25, 15 lbs. \$3.00, 30 lbs. \$5.00, 60 lbs. \$9.00, 100 lbs. \$15.00.

SPRAY YOUR BEANS

With Bordeaux Mixture to prevent disease to destroy plant lice add Black Leaf 40 or Derrisol. Start spraying early keeping vines continually covered to insure a healthy crop.

WAX-PODDED BUSH BEANS

GREGORY PAYS THE FREIGHT

Prices Subject to Change

NEW KIDNEY WAX BEANS

28 One of the finest of recent introductions in Beans. The healthy plants are blight and rust resisting, bearing their loads of handsome pods very early in the season.

Pods are flat, bright yellow, very straight and handsome, always stringless and brittle at all stages of growth. Pkt. 10c., $\frac{1}{2}$ lb. 25c., lb. 35c., 2 lbs. 65c., postpaid; by freight prepaid, 5 lbs. \$1.25, 10 lbs. \$2.25, 15 lbs. \$3.00, 30 lbs. \$5.00, 60 lbs. \$9.00.

CRACKER JACK WAX

102 42 days. Early as the Wardwell's Kidney Wax, very vigorous, healthy and wonderfully productive. It will produce 50 per cent. more pods than any other wax variety. Has broad, flat, golden yellow pods, entirely free from strings.

Pods fit to eat in about 40 days.

WARDWELL'S KIDNEY WAX

105 42 days. Extremely early, with very long tender, stringless pods, a prolific bearer. It is used for late as well as early planting.

GOLDEN QUEEN, OR HODSON WAX

110 60 days. A rust-proof Wax Bean. Healthy vines which hang filled with a wonderful crop of long, straight pods 6 to 7 inches in length. It is medium late.

KEENEY'S RUSTLESS GOLDEN WAX

120 50 days. All Wax Beans are more or less subject to rust, which spoils them for market use. Keeney's is a sport from the Golden Wax, that excels in its comparative freedom from rust. A tremendous cropper, the vines, being literally loaded with delicious, tender pods, $4\frac{1}{2}$ to 5 in. long

EXTRA EARLY REFUGEE WAX

145 Yields immensely, perfectly stringless. Round pods. Does not rust.

SURE CROP STRINGLESS WAX

155 42 days. (Best Black Wax sent out). Heaviest yielder of all Wax Beans, with rich yellow pods, slightly curved, averaging 6 to 7 inches in length, almost round, stringless at all stages.

Cracker Jack Wax

Prices for the above varieties, pkt. 10c., $\frac{1}{2}$ lb. 25c., lb. 35c., 2 lbs. 65c., postpaid; freight prepaid, 5 lbs. \$1.25, 10 lbs. \$2.25, 15 lbs. \$3.00, 30 lbs. \$5.00, 60 lbs. \$9.00.

RED KIDNEY

160 A standard red field sort; fine for baking. Pkt. 10c., $\frac{1}{2}$ lb. 25c., lb. 40c., 2 lbs. 70c., postpaid; freight prepaid, 5 lbs. \$1.25, 10 lbs. \$2.25.

SNOWFLAKE FIELD

165 The very best small Pea Bean known. Dry beans eighty days from time of planting. Pkt. 10c., $\frac{1}{2}$ lb. 25c., lb. 40c., 2 lbs. 65c., postpaid; freight prepaid, 5 lbs. \$1.25, 10 lbs. \$2.25.

New Kidney Wax Beans

IMPROVED YELLOW EYE

170 One of the best varieties for baking, remarkably vigorous and prolific. Pkt. 10c., $\frac{1}{2}$ lb. 25c., lb. 35c., 2 lbs. 65c., postpaid; freight prepaid, 5 lbs. \$1.25, 10 lbs. \$2.25.

BUSH LIMA BEANS

Don't plant Lima Beans in cold, moist soil, they need warm soil.

BURPEE IMPROVED

180 80 days. The earliest and large podded Bush Limas, bearing pods almost equal in size to those of the large Pole Limas. Pods average 5 to 6 inches long and contain 4 to 5 large, thick, green beans of delightful quality. Plants are of sturdy, upright growth and bear pods in large clusters. Pkt. 15c., $\frac{1}{2}$ lb. 25c., lb. 45c., 2 lbs. 80c., postpaid; by freight prepaid, 5 lbs. \$1.75, 10 lbs. \$3.25.

FORDHOOK

185 75 days. Beans and pods large, but the bushes are of erect growth, bearing their abundance of pods well above the ground. Clusters of 4 to 6 pods are common. Beans are green thin-skinned and of really delicious quality. Pkt. 15c., $\frac{1}{2}$ lb. 25c., lb. 45c., 2 lbs. 80c., postpaid; freight prepaid, 5 lbs. \$1.75, 10 lbs. \$3.25.

HENDERSON'S

190 Earliest bush strain. Pkt. 15c., $\frac{1}{2}$ lb. 35c., lb. 50c., 2 lbs. 80c., postpaid; by express, not prepaid, 5 lbs. \$1.75.

BUSH SHELL BEANS

EARLY CARMINE PODDED DWARF HORTICULTURAL

80 Earliest Horticultural Bush Bean; very rich carmine pods; the most attractive Bean of its class. Can be used early as a green pod snap Bean. Quality excellent. Pkt. 15c., $\frac{1}{2}$ lb. 25c., lb. 40c., 2 lbs. 70c., postpaid; by freight prepaid, 5 lbs. \$1.65, 10 lbs. \$2.35, 15 lbs. \$3.25, 30 lbs. \$5.50.

GREGORY'S RUST-PROOF INTERMEDIATE HORTICULTURAL

90 Our customers are very enthusiastic in their praises over this Bean. Pods remarkably large, many containing seven beans. Color very bright and attractive. Plants healthy, vigorous and productive. It never has been known to blight. Planted May 10, you can commence picking July 20. Sends out more or less tendrils as do most Horticulturals. Pkt. 15c., $\frac{1}{2}$ lb. 25c., lb. 45c., 2 lbs. 80c., postpaid; by freight prepaid, 5 lbs. \$1.75, 10 lbs. \$3.25, 15 lbs. \$3.75, 30 lbs. \$6.00, 60 lbs. \$11.00.

DWARF GOLDEN CARMINE HORTICULTURAL BEAN

It has a large, broad long, golden-yellow pod, splashed with bright carmine. On the average this bean will be ready for table as a snap bean in about 58 days, and as a shell variety about ten days later. At all stages the pod is entirely stringless and tender, making it very desirable as a snap variety. Pkt. 15c., $\frac{1}{2}$ lb. 35c., lb. 55c., postpaid; by freight, prepaid, 5 lbs. \$2.25, 10 lbs. \$4.00

POLE BEANS

CULTURE. Set the poles 3 or 4 feet apart, and plant 6 to 8 beans around each pole, thinning to four healthy plants. They require the same soil and treatment as the dwarf varieties, with the exception that they crave stronger soil and do best in a sheltered location. One quart to 150 poles.

BURGER'S STRINGLESS GREEN POD

200 (SEE ILLUSTRATION). (Often called White Kentucky Wonder on account of having a white seed). Decidedly earlier than Kentucky Wonder. Pods uniform in size, very long, moderately curved, creased back, dark green in color, extremely brittle, stringless of excellent quality and free from disease; pods $6\frac{1}{4}$ to 8 inches entirely stringless at all stages of growth. Dry beans excellent for baking in the winter.

Burger's Stringless Green
Pod Pole Beans

KENTUCKY WONDER

205 Long, round green podded; a tremendous cropper.

MAMMOTH HORTICUL- TURAL

210 Our clerk who visited a large plantation of this Bean said it was the handsomest sight in Beans he ever saw. Thousands of poles were literally covered from top to bottom with extra large, carmine-colored pods.

LONDON HORTICUL- TURAL

225 Pods striped, with red, fine, string or shell.

SCARLET RUNNER

230 Ornamental bright red flowers; good snap Bean. Prices for the above varieties: Pkt. 15c., $\frac{1}{2}$ lb. 35c., lb. 50c., 2 lbs. 85c., postpaid; freight prepaid, 5 lbs. \$2.25, 10 lbs. \$4.00.

Gregory's Improved Crosby's Egyptian Beet

WAX PODDED SORTS

KENTUCKY WONDER WAX POLE

235 We have here a variety with all its superb qualities of the Green Pod variety except that it, is of a beautiful transparent yellow color. It is a rampant grower. Pods are solidly meaty, entirely stringless, and when cooked, deliciously rich and buttery.

GOLDEN CLUSTER WAX

240 Early, very prolific, very handsome; in fact, very first-class, a standard.

Prices of the above varieties: Pkt. 15c., $\frac{1}{2}$ lb. 35c., lb. 50c., 2 lbs. 95c., postpaid; by freight prepaid, 5 lbs. \$2.25.

POLE LIMA BEANS

NEW GIANT PODDED PROLIFIC

245 90 days. Grows green, keeps green, and the only Lima Bean that is absolutely green when dried. More productive than any other Pole Lima we have ever seen grown. Large pods hang in clusters of from five to eight making them easy to gather, each having 5 to 6 beans in pod. Pkt. 15c., $\frac{1}{2}$ lb. 30c., lb. 50c., 2 lbs. 95c., postpaid.

EARLY LEVIATHAN

250 85 days. The very earliest of all Pole Limas. Seed sown end of May will produce plants which by middle of August are literally loaded with clusters of handsome pods. Leviathan bears long, straight pods, containing four to five large beans. Quality the very best.

KING OF THE GARDEN

255 90 days. For many years this has been the standard late Pole Lima. Plants are exceedingly vigorous, and no more than two should be allowed to grow to a pole. Beans are borne in clusters.

Prices for above varieties: Pkt. 15c., $\frac{1}{2}$ lb. 30c., lb. 50c., 2 lbs. 90c., postpaid.

ASPARAGUS BEAN GIANT PODDED OR YARD LONG PODS

Large and fleshy, stringless, tender and brittle and as a snap bean has a delicate and very delicious flavor not found in ordinary string beans. Fine for shelling green or for winter use when dry. Drought resistant and easily grown, elongated pods 2 to 3 feet long. Price per pkt. 15c., 3 pkt. 40c.

Beets Table Varieties

CULTURE. Select a deep, rich loam and manure with well-decomposed compost. Sow in drills 14 to 16 inches apart and cover $\frac{1}{2}$ inch deep. When the young plants appear thin to 4 or 5 inches apart. For early use, sow as soon as ground can be worked in the spring; for autumn use, about the middle of May, and for winter use, about the 20th of June, according to variety, the long varieties requiring more time to mature than the round early kinds. When sown late, increase the quantity of seed. To preserve during winter, cover with earth to keep from wilting. When cooking, boil new Beets one hour, and old ones two hours or more. One package plants 15 feet of drill.

DETROIT DARK RED BEET

275 50 days. (Gregory Strain.) The best for Canning. (SEE ILLUSTRATION). Nearly as early as Crosby's Egyptian with flesh as dark as the Edmands, with a more intense red. Tops small, of the finest quality for either home or market. Oz. 10c., $\frac{1}{4}$ lb. 30c., lb. \$1.00, 5 lbs. \$4.50.

GREGORY'S IMPROVED STRAIN OF CROSBY'S EGYPTIAN

300 45 days. One of the earliest and most popular. Especially recommended for greenhouse and farms. We doubt if it is possible to secure a finer strain even though you pay an increased price. Greenhouse men are planting our seed in their greenhouses for early spring. Oz. 10c., $\frac{1}{4}$ lb. 30c., lb. \$1.00, 5 lbs. \$4.50.

BEETS (Continued)**EDMANDS BLOOD**

280 60 days. (Gregory Strain.) This is the best strain of late Turnip Beet, with flesh of an extra dark color, which makes it the most popular Beet with market gardeners. It is superior to all others for winter market. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 35c., lb. \$1.00, 5 lbs. \$4.50, postpaid.

BEET FOR GREENS

326 $\frac{1}{4}$ lb. 20c., lb. 65c., 5 lbs. \$2.75, postpaid; freight, prepaid, 100 lbs. \$40.00.

**SWISS CHARD
OR SPINACH BEET**

A species of Beet cultivated for its tops, which furnish excellent greens. Cultivate exactly like Beets, but thin out plants to stand 12 inches apart in the row.

LARGE RIBBED WHITE

345 Forms handsome plants 2 feet tall. Oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 80c.

LUCULLUS

350 This elegant new sort will be found on page 2 in our unrivaled 70c Vegetable Collection. Full descriptions are offered on page 2. Every home garden should contain a row of Lucullus Swiss Chard. Oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 90c, postpaid.

5-lb. lots deduct 15 cts. per lb. Quotations on larger quantities. Please write.

MANGEL-WURZELS AND SUGAR BEETS

As food for stock during winter months these are unequaled. They keep the stock in perfect physical condition and encourage the flow of milk in cows. They should be sown in drills about 2 feet apart and thinned to 12 or 15 inches in a row (See our work in Mangel-Wurzels, etc.) One ounce to 50 feet of drill. Ten pounds per acre. Globe Mangels succeed better than the long sorts on sandy soil. Do not begin to feed them until midwinter.

**NORBITON GIANT, OR MAMMOTH
LONG RED**

360 100 days. Standard red; very extensively grown. oz. 10c., $\frac{1}{4}$ lb. 20c., lb. 50c., 5 lbs. \$2.40, postpaid.

**GIANT YELLOW INTERMEDIATE
MANGEL**

370 100 days. Grows more than half above the ground and of a rust-yellow color, large leaves with green stems, and very smooth and fine skin. Flesh white, firm and sweet, producing enormous crops. Oz. 10c., $\frac{1}{4}$ lb. 20c., lb. 50c., 5 lbs. \$2.20, postpaid.

MANGEL GIANT HALF-SUGAR

375 100 days. Steadily gaining favor among farmers for feeding cattle. Contain more nutritious matter than watery Mangels, have red skin, with white, fine-grained flesh and a good keeper. Oz. 10c., $\frac{1}{4}$ lb. 20c., lb. 50c., 5 lbs. \$2.40 postpaid

CARTER'S ORANGE GLOBE

380 The best variety of Yellow Globe. Oz. 10c., $\frac{1}{4}$ lb. 20c., lb. 50c., 5 lbs. \$2.00, postpaid.

GATE POST

385 Orange-colored skin, shall top, heavy copper. Oz. 10c., $\frac{1}{4}$ lb. 20c., lb. 50c., 5 lbs. \$2.00, postpaid.

GOLDEN TANKARD

390 Flesh deep yellow, with colored rings; good cropper. Oz. 10c., $\frac{1}{4}$ lb. 20c., lb. 50c., 5 lbs. \$2.00, postpaid.

SLUDSTRUP MANGEL

392 100 days. Holds the world's record for dry matter content. This Mangel has been awarded a first-class certificate several times by the Danish Government, the highest honor in Denmark. Sludstrup is a long, reddish yellow, ovoid root, growing half out of the ground, easily harvested and by test excels any other variety in both the weight and feeding value of yield. Oz. 10c., $\frac{1}{4}$ lb. 20c., lb. 50c., 5 lbs. \$2.40, postpaid.

WANZLEBEN

400 This variety is very extensively used by sugar factories. Often yields 12-18 tons per acre. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 25c., lb. 60c., 5 lbs. \$2.50, postpaid.

BRUSSELS SPROUTS

CULTURE. A class of Sprouts allied to the Cabbage family, producing great numbers of small heads or Sprouts on the main stem of the plant, which are used in the manner of Cabbages. Plant in rich soil, in hills 2 feet apart each way, and thin to one plant to the hill.

DWARF PARIS MARKET

410 The standard variety in most parts of the country. Forms uniformly firm sprouts which are of very delicate flavor. A dwarf strain. Pkt. 10c., $\frac{1}{2}$ oz. 20c., oz. 35c., postpaid.

LONG ISLAND IMPROVED

405 The most popular strain in New York market. Pkt. 10c., $\frac{1}{2}$ oz., 20c., oz. 35c., $\frac{1}{4}$ lb. \$1.35, postpaid.

GREGORY'S THOROUGHbred CABBAGES**COPENHAGEN MARKET**

CULTURE. New land is preferable. Plough deep and manure liberally. The early sorts bear planting from 18 inches to 2 feet apart in the rows, with the rows from 2 to 2½ feet apart; the large varieties to be from 2 to 3 feet apart in the rows, with the rows from 2½ to 3 feet apart. The crops should receive as many as three hoeings and three cultivatings. Cabbage will not usually follow Cabbage or Turnips successfully in field culture unless three or four years have intervened between the crops. For late fall marketing, plant Drumhead sorts from June 10 to 20. One ounce to about 2000 plants. All our seeds are grown from the very best selected heads.

(Our work on "Cabbages and Cauliflower" gives valuable information. Price 45c.)

GLORY OF ENKHUIZEN

425 95 days. Grows large, solid, round heads with few outer leaves, and of such compact growth as to permit quite close planting. When trimmed heads weigh from 6 to 8 pounds. Our seed was produced by the originator in Holland. Pkt. 10c., $\frac{1}{2}$ oz. 15c., oz. 25c., $\frac{1}{4}$ lb. 75c., 1 lb. \$2.60, postpaid.

Copenhagen
Market Cabbage

462 90 days. (SEE ILLUSTRATION). A very early hard heading variety, replacing such well known varieties as Early Jersey, Wakefield, Early Summer and Succession. Plants are vigorous, compact, with short stem and few outer leaves. Heads mature in 99 days. Pkt. 10c. $\frac{1}{2}$ oz., 20c., oz. 35c., $\frac{1}{4}$ lb. 90c., lb. \$3.00, postpaid.

Other Fine Early Cabbage

EARLY JERSEY WAKE-FIELD

440 90 days. Standard extra early Cabbage in many markets of the country, but especially in the East. Pkt. 10c., $\frac{1}{2}$ oz. 15c., oz. 25c., $\frac{1}{4}$ lb. 75c., lb. \$2.60, postpaid.

CHARLESTON WAKE-FIELD

445 95 days. This strain grows larger than the Early Jersey, but matures about ten days to two weeks later. Pkt. 10c., $\frac{1}{2}$ oz. 20c., oz. 30c., $\frac{1}{4}$ lb. 85c., lb. \$3.00, postpaid.

ALL HEAD

455 105 days. Early, good sized, hard heading, heads finely. One of the finest Drumheads. Planted extensively in Florida. Very uniform in size. Pkt. 10c., $\frac{1}{2}$ oz. 15c., oz. 25c., $\frac{1}{4}$ lb. 75c., lb. \$2.60, postpaid.

Second Early Sorts

ALL SEASONS

465 110 days. Sometimes called Vandergaw. This fine variety, which we were the first to catalogue, has, through clear, sheer merit, introduced itself, and is exceedingly popular in every quarter in the United States. Hundreds of pounds of this splendid sort is used by the large canners who use All Seasons exclusively in their manufacture of "Kraut." It is called All Seasons because it is just as good for late market or to keep over winter as it is for the early market. Our stock is from specially selected heads. Pkt. 10c., $\frac{1}{2}$ oz. 15c., oz. 25c., $\frac{1}{4}$ lb. 75c., lb. \$2.50, postpaid.

GOLDEN ACRE CABBAGE

A valuable new variety from Denmark considered the most important recent Cabbage introduction. Eighty days from date of sowing. Heads measure 9 inches in diameter, entire plant occupies a space of 20 inches. foliage consists of 13 leaves, height of stalk $1\frac{1}{4}$ inches. Ten days earlier than Copenhagen Market Cabbage. If you cater to the early market by all means try the Golden Acre. Pkt. 10c., $\frac{1}{2}$ oz. 25c., oz. 40c., $\frac{1}{4}$ lb. \$1.25, lb. \$4.00, postpaid.

Burnham
Aug. 1, 1932.

The Telephone Peas did fine and are lovely ones. I am hoping to have seeds from you another season.

MRS. EVA C. HUNT.

Golden Acre Cabbage

All Seasons Cabbage

WARREN

470 115 days. Is sometimes called Warren Stone-Mason. A very popular variety for market gardeners in the vicinity of Boston. One of the best varieties for storing for winter use, making a round, medium-sized and extremely hard head. Pkt. 10c., $\frac{1}{2}$ oz. 25c., oz. 40c., $\frac{1}{4}$ lb. \$1.50, lb. \$5.50, postpaid.

EARLY WINNIGSTADT

480 Heads large, cone shaped, solid; one of the best for all soils. Pkt. 10c., $\frac{1}{2}$ oz. 15c., oz. 25c., $\frac{1}{4}$ lb. 75c., lb. \$2.60, postpaid.

FOTTLE'S EARLY BRUNSWICK

485 130 days. Earliest of the large heading Drumheads. Pkt. 10c., $\frac{1}{2}$ oz. 15c., oz. 25c., $\frac{1}{4}$ lb. 75c., lb. \$2.50, postpaid.

WONG BOK

538 A Great Vegetable from China. The famous Chinese Celery Cabbage. The plant as trimmed for eating is about 5 inches in diameter by 12 inches long. It has wide mid-ribs at the base and merges into crisp, tender leaves at the top, the whole being very compact and heavy. It blanches to almost clear white. Pkt. 10c., oz. 30c., $\frac{1}{4}$ lb. 90c., lb. \$3.00, postpaid.

GREGORY PAYS THE FREIGHT

See page 4

Shrewsbury, N.J.

Were I in the Market Garden business as I was a number of years ago, I certainly would put out a number of acres of your Gregory Tomato. They proved the earliest by two weeks of the early varieties I raised last season; and cropped heavier than the Burbank and Earliana.

C. C. BARKER

Mar. 23, 1928.

Lake Hill, Victoria, B.C.

We were entirely satisfied with seeds we got from you last year especially Gregory Tomato, the best we ever had.

F. N. BORDEN.

Mar. 8, 1928.

Los Angeles, Calif.

I have glowing accounts of your New Gregory Tomato from my friend Mr. McConnell in Renton, Wash., that I am sending to you for some. Send to my home address Waseca, Minn., I will send the remainder of my order when I arrive home.

MISS NELL J. YOUNG

CABBAGE — Continued**THE HOLLANDER**

495 120 days. One of the best of those hard-heading foreign varieties. The heads are thick, round, or medium size and about as hard as a rock. Exceedingly hardy resists cold and stands dry weather well. Pkt. 10c., $\frac{1}{2}$ oz. 15c., oz. 25c., $\frac{1}{4}$ lb. 85c., lb. \$3.00, postpaid.

DANISH WINTER BALL-HEAD

505 120 days. The most popular winter Cabbage. Heads medium size, round, solid, fine for storing for late winter use. Pkt. 10c., $\frac{1}{2}$ oz. 20c., oz. 35c., $\frac{1}{4}$ lb. \$1.00, lb. \$3.00, postpaid.

PREMIUM FLAT DUTCH

510 130 days. Excellent for winter; extensively grown everywhere; a standard. Pkt. 10c., $\frac{1}{2}$ oz. 15c., oz. 25c., $\frac{1}{4}$ lb. 75c., lb. \$2.50, postpaid.

IMPROVED AMERICAN SAVOY

515 110 days. (SEE ILLUSTRATION). The Improved American Savoy is one of our old standbys. It grows to good size. If you want a very dark green, curly variety, plant our strain, it is the best. The variety, that the Boston market gardeners prefer. Pkt. 10c., $\frac{1}{2}$ oz. 20c., oz. 35c., $\frac{1}{4}$ lb. \$1.00, lb. \$3.00.

**Improved American Savoy Cabbage****CARROTS**

CULTURE. Carrots thrive best in a sandy loam free from stones. The ground should be well manured with fine, well-rotted or composted manure, eight cords to the acre, and be thoroughly worked quite deep, by two ploughings made at right angles with each other. Also cultivate and drag, if there are any lumps, and then rake level, burying all remaining lumps and stones. Plant in rows 14 inches apart, and thin plants 3 to 4 inches in the rows. Plant from the middle of April to June 10, to insure crop. One ounce will sow 150 feet of drill. 3 lbs. seed per acre. (See our work on "Mangels and Carrots.") Price 45c., postpaid.

GREGORY'S PRIZE DANVERS

540 80 days. Under high cultivation (see our treatise on Carrots and Mangels), 40 ton are raised to the acre, and at times even larger crops. This carrot is of a rich, dark orange in color, very smooth and handsome, and from its length is easier to dig than the Long Orange. We have the reputation, among the leading market gardeners and seedmen of the world, of having the finest strain of this variety. Oscar Belden & Sons raised 2800 bushels on 2 $\frac{1}{2}$ acres. Pkt. 10c., $\frac{1}{2}$ oz. 20c., oz. 25c., $\frac{1}{4}$ lb. 65c., lb. \$1.75, postpaid.

SCARLET NANTESE

555 This is about the neatest, nicest family carrot we have ever raised in our experimental grounds. It is just about invariably stump rooted; 3 to 4 inches long, a quick grower; used for growing under glass. Pkt. 10c., $\frac{1}{2}$ oz. 15c., oz. 25c., $\frac{1}{4}$ lb. 50c., lb. \$1.50, postpaid.

**Hutchinson Carrot****MAMMOTH ROCK RED**

525 120 days. Largest of all the red varieties. The head is large, round, very solid and of deep red color. Ninety eight per cent of the plants will form extra fine heads. Pkt. 10c., $\frac{1}{2}$ oz. 20c., oz. 30c., $\frac{1}{4}$ lb. 85c., lb. \$3.00, postpaid.

RED DANISH STONEHEAD

535 120 days. A fine type of Cabbage introduced from Denmark, a country so famous for Cabbage and Cauliflower of quality. Pkt. 10c., $\frac{1}{2}$ oz. 20c., oz. 30c., $\frac{1}{4}$ lb. \$1.00, lb. \$3.00, postpaid.

HUTCHINSON

542 (SEE ILLUSTRATION OF A TYPICAL ROOT BELOW). Unquestionably the finest strain of Carrot yet introduced. This is a selection from the well-known Danvers, made by the late Mr. Amos Hutchinson, of Peabody, Mass. This Carrot always commanded the highest price in the market. In color it is a little darker than the Danvers, grows from 1 to 2 inches longer, and holds its fulness well down, and is a much heavier cropper. Two Carrots go across the box. You will actually secure 20 per cent more Carrots per acre from this variety than from the Danvers, and the quality is equally good. Pkt. 10c., $\frac{1}{2}$ oz. 25c., oz. 40c., $\frac{1}{4}$ lb. \$1.00, lb. \$3.00.

CHANTENAY

545 65 days. (SEE ILLUSTRATION). Grown for the most critical market garden trade. Of rich, dark orange color. In earliness it ranks intermediate between the Danvers and the Short Horn. Of the style of the Danvers, hardly as large, but finer and more symmetrical. It is being used quite extensively by market gardeners for bunching. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 40c., lb. \$1.35, postpaid.

GUERANDE, OR OX-HEART

550 75 days. (SEE ILLUSTRATION). Flesh bright orange, fine grained and sweet mature roots; 4 $\frac{1}{2}$ to 5 inches long; very thick; with a small tap root. Excellent to plant where soil is too stiff for longer varieties. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 35c., lb. \$1.05, postpaid.

CARROT — Continued

Chantenay Carrot

EARLY SCARLET HORN

565 70 days. Early, short variety for forcing, excellent for table; color deep orange. Pkt. 10c., oz. 15c., $\frac{1}{4}$ oz. 35c., lb. \$1.05, postpaid.

IMPROVED LONG ORANGE

575 80 days. If you are looking for a Carrot for late keeping try the Improved Long Orange. Some of our customers keep them into June and receive fancy prices. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 35c., lb. \$1.05, postpaid.

Carrots For Stock Feeding

LARGE WHITE BELGIAN

585 Productive; good for horses; can be pulled by hand. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 35c., lb. \$1.05, postpaid.

YELLOW BELGIAN

590 Grows partly out of ground; capital for large stock-keepers. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 40c., lb. \$1.25, postpaid;

FRANCES E. CLARK, M.D., BOSTON, MASS., writes:
Last spring I bought of you 12 bushels of Gold Coin Potatoes. I have just returned from the farm in Union, Maine. My farmer, an experienced man, says they are the finest he ever saw, smooth and of good size.

Guerande Carrot

CAULIFLOWER

CULTURE. Pursue the same course as with Cabbage, manuring rather heavier and hoeing oftener. Plant the late varieties early as they require the whole season to mature in. Cauliflowers covet the cool, moist weather of the fall months to perfect themselves. One ounce for 2000 plants. (See treatise on Cabbage or Cauliflower. Price 45c., postpaid.)

GREGORY'S EXTRA EARLIEST

592 90 days. This very early variety came to us from Denmark. The earliest largest variety we had the pleasure of growing. In our experimental grounds it was the first to produce heads; in fact, no other variety showed any sign of a head when our Extra Earliest was ready for market. $\frac{1}{2}$ size pkt. 15c., pkt. 25c., $\frac{1}{4}$ oz. 75c., oz. \$2.50, $\frac{1}{4}$ lb. \$8.50, lb. \$25.00, postpaid

GREGORY'S EARLY SNOWBALL

595 95 days. Our Snowball Cauliflower is grown especially for us in Denmark from carefully selected heads. It is a very reliable heading variety with a rich, snow white, close, compact curd of exceptionally fine quality. $\frac{1}{2}$ size pkt. 15c., pkt. 25c., $\frac{1}{4}$ oz. 75c., $\frac{1}{4}$ oz. \$1.35, oz. \$2.50, $\frac{1}{4}$ lb. \$8.50, lb. \$25.00, postpaid

DWARF DANISH GIANT, DRY WEATHER

600 120 days. This superior strain originated in Copenhagen, Denmark. It is about two weeks later than our Snowball, makes a larger head, and is very resisting against unfavorable season and dry weather. We would suggest that our customers try this variety where they have made a failure with other strains. Every one does not meet with success in growing Cauliflower, but the land must be thoroughly enriched and the soil kept well cultivated during the entire season. $\frac{1}{2}$ pkt. 15c., pkt. 25c., $\frac{1}{4}$ oz. 75c. $\frac{1}{2}$ oz. \$1.35, oz. \$2.50., $\frac{1}{4}$ lb. \$8.50, lb. \$25.00.

GOLDEN PLUME OR WONDERFUL SELF-BLANCHING CELERY

625 It matures from two to three weeks earlier than Golden Self-Blanching and blanches in half the time. Of finest flavor, without strings. Sweet, succulent, crisp and tender. Solid, rapid growing heart. All good eating, even the foliage and good size for the table. Blight and Rust Resistant. Pkt. 15c., $\frac{1}{4}$ oz. 50c., oz. 90c., $\frac{1}{4}$ lb. \$3.00.

PARIS GOLDEN SELF-BLANCHING

635 120 days. Large, brittle, solid. Surpasses in about all the characteristics sought after in an early Celery — vigor of growth, large size, readiness in blanching, it being to a large degree self-blanching, and in possessing the rich nutty flavor of the best varieties. Planted by all market gardeners for an early Celery. Pkt. 15c., $\frac{1}{4}$ oz. 50c., oz. 85c., $\frac{1}{4}$ lb. \$2.75, lb. \$8.50, postpaid,

Gregory's Extra Earliest Cauliflower

CELERY

CULTURE. Plant seed in hotbed or very early in open ground. Transplant 4 inches apart, when 3 inches high, in rich soil finely pulverized; water and protect until well rooted, then transplant into rows 5 or 6 feet apart, either on surface or in well manured trenches a foot in depth, half filled with well rotted manure. Set the plants from 8 to 12 inches apart. To blanch, draw earth around the plants from time to time, taking care not to cover the tops of the center shoots. For winter use in the family Celery needs to be hilled up only 8 inches. One ounce of seed gives about 4000 plants.

NEW EASY BLANCHING

630 120 days. A variety of celery of great merit on account of its rust resisting qualities. It is very easily blanched. Of dwarf compact growth useful both for early and for keeping throughout the winter months. Stalks are meaty, pure white, heavy and crisp, quality extra fine. Excellent to plant to follow Golden Self Blanching. Pkt. 10c., $\frac{1}{4}$ oz. 30c., oz. 50c., $\frac{1}{4}$ lb. \$1.25, lb. \$4.50, postpaid.

CELERY (Continued)

GIANT PASCAL

650 145 days. One of the best late Celeries ever introduced, of surpassing flavor and great keeping qualities. It is a tall sort, growing large, thick and solid stalks. Dark green in color. It has a golden heart, and a rich, nutty flavor. This is a fine keeper. Pkt. 10c., ½ oz. 25c., oz. 45c., ¼ lb. \$1.35, lb. \$4.50, postpaid

WINTER QUEEN

660 150 days. Most valuable variety of Celery for winter and spring use. It is also much stouter, thicker and heavier, with double the amount of heart of any known Celery. The plant blanches to a beautiful cream white, with ribs perfectly solid, crisp and of a delicious nutty flavor." Pkt. 10c., ½ oz. 20c., oz. 35c., ¼ lb. \$1.00, lb. \$3.50, postpaid.

OLD CELERY

685 For flavoring pickles, etc. Pkt. 5c., oz. 10c., ¼ lb. 15c., lb. 45c., postpaid.

GREGORY'S CHOICEST STRAINS OF SWEET CORN

CULTURE. — Do not plant before the ground has become warm; nothing is gained by it. Drill cultivation is more profitable than hill cultivation. The smaller varieties may be planted with the drills 2 ½ feet apart, and the stalks thinned to 10 inches apart. The larger sorts should have the drills 3 to 4 feet apart and the stalks a foot apart in the rows, and the largest Dent varieties 18 inches apart. Use some rich manure in the drills. Frequently stir the earth around the roots by hoe or cultivator, but do not draw it up about the stalks. A package of corn contains about 250 kernels — this is seed enough to plant over 25 hills — at a cost less than one cent per hill. One pound for 200 hills. Plant Corn by July 10, and if the season is an average one you will have green Corn early in November.

GOLDEN BANTAM

705 70 days. (SEE ILLUSTRATION). Our golden yellow sweet Corn is very early, very sweet, very hardy and of a delicious flavor, one that will become a favorite in every community wherever it is grown. It keeps longer than the white varieties in eating order. Pkt. 10c., ½ lb. 25c., 1 lb. 40c., 2 lbs. 70c., 6 lbs. \$1.50, postpaid. By freight, prepaid, 12 lbs. \$2.60; 100 lbs. \$16.00.

BANTAM EVERGREEN

706 90 days. Golden Bantam Crossed with Stowell's Evergreen. This variety of Golden Sweet does not produce the small nubbins such as are found in the Golden Bantam. Ears are from 7 to 9 inches long with 12 to 14 rows.

In the crossing of the Golden Bantam and Stowell's Evergreen none of the good qualities of either have been lost. The flavor is rich, nut-like and delicious. Pkt. 10c., ½ lb. 25c., 1 lb. 40c.; 2 lbs. 70c.; 6 lbs. \$1.50, postpaid; By freight, prepaid, 12 lbs. \$2.60; 100 lbs. \$16.

CHICORY WITLOOF, OR FRENCH ENDIVE

695 4 months to mature roots. **CULTURE.** — Sow this just as you would carrots. For salad blanch the leaves by covering to exclude light. When left for the roots, thin out seedlings to stand about 4 in. apart in the row. In the fall, dig the roots and store them in the cellar or in frost-proof pit in the garden until wanted. Witloof Chicory is grown for its delicate, tender shoots, which it produces when these roots are planted in frames or boxes in the house during the winter months. Or the roots may be planted out in the spring in rows 28 inches apart and will produce delicate, creamy leaves in the garden. Elegant as a salad; superior to Cos Lettuce in flavor. Pkt. 10c., oz. 15c., ¼ lb. 40c., 1 lb. \$1.50.

CELERICAC LARGE SMOOTH PRAGUE

670 140 days. Grown for its fleshy roots which are extensively used in soup. Boiled like Turnips and permitted to get cold, they form the basis of a most delicious salad. Peel off skin and cut roots in slices, after boiling. Add salt, pepper and a pinch of garlic, together with a dressing of vinegar and olive oil. This cold salad is considered a great delicacy. Pkt. 10c., ½ oz. 25c., oz. 40c.

CARPENTER'S GIANT GOLDEN SWEET

710 80 days. The most delicious of all the golden sweet varieties of Corn that we have ever grown. The Carpenter's Golden Sweet surpasses all other varieties of yellow sweet Corn in quality, and does not have that mealy taste so characteristic of yellow varieties, retains its eating qualities much longer, as we found it very sweet even after we had thought it past the eating stage. Stalks grow 6 feet tall, with two to three ears on each stalk; excellent to plant for a succession with Golden Bantam and Golden Honey. Pkt. 10c.; ½ lb. 25c.; 1 lb. 40c.; 2 lbs. 70c.; 6 lbs. \$1.50, postpaid. By freight, prepaid, 12 lbs. \$2.60; \$1.50 lbs. \$16.00.

GOLDEN HONEY SWEET

785 A few days later than Golden Bantam, producing ears twice as large. Flavor delicious, many claim the quality equals the Golden Bantam. A more profitable variety to grow, yielding many more bushels per acre. Some call it Improved Golden Bantam. Pkt. 10c., ½ lb. 25c., 1 lb. 40c.; 2 lbs. 70c., 6 lbs. \$1.50, postpaid. By freight, prepaid, 12 lbs. \$2.60; 100 lbs. \$16.00.

DR. DE LUE'S GOLDEN GIANT

789 70 days. Dr. De Lue of Boston, introduced this variety several years ago, it being a cross between Howling Mob and Golden Bantam. It produces ears with 12 to 16 rows of a deep golden yellow, some ears measuring 9 inches long. Many stalks produce two well developed ears. Nearly as early as Golden Bantam (some claim it to be earlier) on account of the size of the ears a more profitable variety for the market gardener to grow; of exceedingly fine quality. Pkt. 10c.; ½ lb. 25c.; 1 lb. 40c.; 2 lbs. 70c., 6 lbs. \$1.50, postpaid. By freight, prepaid, 12 lbs. \$2.50; 100 lbs. \$16.00.

Golden Bantam

POCAHONTAS EARLY SWEET

719 65 days. Extremely early, with large, ten-rowed ears, quality superior to any extra early variety that we know. On our farms we find it several days later than our strain of Cory, but with an ear twice as large. Two hundred to three hundred boxes have been raised per acre. Gates Bros., Danvers, Mass., says they raised 1000 boxes on 2 1/2 acres. Pkt. 10c., 1/2 lb. 25c., 1 lb. 40c., 2 lbs. 75c., postpaid; 5 lbs. \$1.50, 10 lbs. \$2.75.

**EXTRA EARLY
GOLDEN MARKET CORN**

730 An extremely early variety, Golden Market originated in Oregon. Our grower, who is a man of wide experience, informs us that the Golden Market is earlier than Golden Sunrise and that it is going to take the place of that excellent variety, quality of the best. Ears compact, ten to twelve rows, kernels closely set. Gardeners harvest means considerable in the way of dollars. Pkt. 10c.; 1/2 lb. 25c.; 1 lb. 40c.; 2 lbs. 75c., 5 lbs. \$1.50; 12 lbs. \$2.75.; 100 lbs. \$17.00 freight paid.

731 GOLDEN SUNSHINE CORN

An extra early variety of sweet corn, earlier than Golden Bantam. Stalks grow 4 1/2 to 5 feet, ears compact six to seven inches long with 10 to 12 rows of kernels instead of 8 as Golden Bantam kernels are closely set which gives a refined appearance to the ear. Quality delicious. Pkt. 10c., 1/2 lb. 25c., 1 lb. 40c., 2 lbs. 75c., 5 lbs. \$1.50, 12 lbs. \$2.75, 100 lbs. \$16.00, freight paid.

MEXICAN SWEET

745 Black and White Kernels, in sweetness and tenderness excels all varieties we know. Pkt. 10c., 1/2 lb. 25c., 1 lb. 40c., 2 lbs. 75c., postpaid; 5 lbs. \$1.50, 10 lbs. \$2.75.

GREGORY PAYS THE FREIGHT

See Page 4.

STOWELL'S EVERGREEN SWEET

760 90 days. Green till cold weather; ears large; a standard late. Prices for the above varieties: Pkt. 10c., 1/2 lb. 25c., 1 lb. 40c., 2 lbs. 70c., postpaid; 5 lbs. \$1.50, 12 lbs. \$2.50, 48 lbs. \$9.00.

SWEET FODDER

770 For cow feed. Not, as usual, mere trash, but good Corn to vegetate. 1/2 lb. 20c., 1 lb. 25c., 2 lbs. 45c., postpaid; by express, 5 lbs. \$1.00, 12 lbs. \$2.25, 48 lbs. \$8.00.

MAMMOTH WHITE CORY

775 Some claim this to be as early as the original Cory with the great advantage of being decidedly larger in both ear and kernel. Pkt. 10c., 1/2 lb. 25c., 1 lb. 40c., 2 lbs. 75c., postpaid; 5 lbs. \$1.50, 12 lbs. \$2.75.

QUINCY MARKET

780 70 days. There is no white variety of second early that gives equal satisfaction. Earlier than Crosby; 12 rowed. Pkt. 10c., 1/2 lb. 25c., 1 lb. 40c., 2 lbs. 70c., postpaid; 5 lbs. \$1.50, 12 lbs. \$2.50.

POP CORN

821 Egyptian Pop, or White Rice. More tender when popped than the common variety. Pkt. 10c., 1/2 lb. 25c., 1 lb. 40c., 2 lbs. 75c., postpaid; 1/2 lb. 20c., 1 lb. 35c., 2 lbs. 65c.

FIELD CORN

Prices of all items subject to change without notice.

LONGFELLOW

800 A yellow flint grown considerably in New England 8 rows, ears measuring from 10 to 12 inches long. Cobs small. Ripen easily in Massachusetts. Pkt. 10c., 1 lb. 35c., 2 lbs. 65c., postpaid; 14 lbs. \$1.35, 56 lbs. \$4.25.

EARLY YELLOW FIELD

801 Earlier than Longfellow; does not grow as long ears. Will mature farther north. Pkt. 10c., 1 lb. 35c., 2 lbs. 65c., postpaid; 14 lbs. \$1.35, 56 lbs. \$4.25.

**TRY NITROPHOSKA
ON YOUR CORN**

Small quantity around each hill when plants are a foot high will force the growth. It's a complete fertilizer. More powerful than Nitrate of Soda. See page 46.

IMPROVED LEAMING

810 The best Yellow Dent Corn for the silo. We have made careful tests of all the large Dent varieties suitable for the silo, and still prefer and recommend the Leaming. Pkt. 10c., 1 lb. 35c., postpaid; 1 lb. 25c., 7 lbs. \$1.00, 14 lbs. \$1.35, 56 lbs. \$4.50. Write for prices on larger quantities.

CRESS

CULTURE. Plant on rich soil, finely pulverized, in drills 6 or 8 inches apart. That grown in the cool of the season is of the best quality. To be used as salad before the flowers appear.

UPLAND

823 Has all the characteristics of watercress, and can be grown easily in any garden. Pkt. 10c., 1/4 oz. 25c., 1 oz. 40c.

CURLED, OR PEPPER GRASS

825 Furnishes a pleasantly pungent salad early in the season. Pkt. 10c., 1 oz. 20c., 1/4 lb. 40c.

IMPROVED LARGE-LEAVED WATER

828 Larger leaves, better quality; productive. Pkt. 15c., 1/2 oz. 65c., postpaid.

DANDELION

CULTURE. This vegetable has become very popular as an early, healthful green, and the roots also are used, when dried, as a substitute for coffee. Its use in either of these forms is particularly recommended to those who are inclined to any disease of the liver. Sow in May, in drills 1 foot apart, covering the seed 1/4 inch deep. Rich soil is preferable, but this plant will thrive anywhere.

**IMPROVED FRENCH THICK-
LEAVED OR ARLINGTON**

871 Saved from open blossoms. Seven hundred bushels have been grown on three-fourths of an acre. Pkt. 15c., 1/2 oz. 40c., 1 oz. 75c., 1/4 lb. \$2.50.

Quincy Market

GREGORY'S CHOICE CUCUMBERS

NITROPHOSKA IS A GOOD FERTILIZER FOR CUCUMBERS

Plant after the ground has become warm, in hills 3 feet apart for the smaller varieties, and 4 feet for the larger. Manure with sheep manure or some well-rotted compost, working the manure just under the surface. Sprinkle vines with Arsenic of Lead and Bordeaux Mixture to protect from bugs and disease. One ounce for 50 hills.

EXTRA SELECTED WHITE SPINE

837 60 days. (SEE ILLUSTRATION). We offer our customers a fine strain of the White Spine, which they will find superior, in its fine size and symmetrical shape, to many strains, while in purity it is remarkable. Pkt. 10c., oz. 15c., 2 oz. 25c., $\frac{1}{4}$ lb. 40c., 1 lb. \$1.50, postpaid.

IMPROVED WHITE SPINE, OR ARLINGTON

839 60 days. Great bearer, standard for outdoors. Pkt. 10c., 1 oz. 15c., 2 oz. 25c., $\frac{1}{4}$ lb. 40c., 1 lb. \$1.50.

FORDHOOK FAMOUS

845 The introducer claims: "Vines produce an enormous crop, of unusually vigorous growth. Smooth and very dark green, the handsome fruits measure 12 to 18 inches long; they are always straight, never turn yellow and are extra solid. The seed space is extremely small." Pkt. 10c., 1 oz. 15c., 2 oz. 25c., $\frac{1}{4}$ lb. 45c., 1 lb. \$1.50, post paid.

DAVIS' PERFECT

847 60 days. In our experimental grounds it was a heavy cropper, dark green color, an excellent variety for general outdoor use. For uniformity of fruits and as a prolific bearer. Davis' Perfect has no superior among White Spine sorts for outdoor planting. Pkt. 10c., 1 oz. 15c., 2 oz. 25c., $\frac{1}{4}$ lb. 45c., 1 lb. \$1.50, postpaid.

EARLY FORTUNE CUCUMBER

846 Fruits of a rich dark green color, averaging about nine inches long. Has a small seed cavity, thick fleshed, tender and crisp. Pkt. 10c., 1 oz. 20c., 2 oz. 35c., $\frac{1}{4}$ lb. 55c., 1 lb. \$1.65, postpaid.

IMPROVED LONG GREEN

850 70 days. The old standard long variety. Also called London Long Green. Pkt. 10c., 1 oz. 15c., 2 oz. 25c., $\frac{1}{4}$ lb. 45c., 1 lb. \$1.50, postpaid.

SNOW'S PICKLING CUCUMBER

851 An early maturing, small dark green cucumber, cylindrical square ended, popular with growers for small pickles. It is a strong, vigorous grower. Its dark green color makes it exceptionally valuable and attractive. Pkt. 10c., 1 oz. 15c., $\frac{1}{4}$ lb. 40c., 1 lb. \$1.50.

BOSTON PICKLING

858 60 days. A medium long variety; the standard for pickling in Boston market. Pkt. 10c., 1 oz. 15c., 2 oz. 25c., $\frac{1}{4}$ lb. 40c., 1 lb. \$1.50, postpaid.

Extra Selected White Spine

EARLY CLUSTER

866 Bears mostly in clusters; early and productive. Pkt. 10c., 1 oz. 15c., 2 oz. 25c., $\frac{1}{4}$ lb. 40c., 1 lb. \$1.50, postpaid.

EARLY RUSSIAN

868 One of the very earliest of all varieties; grows about 4 inches long. Pkt. 10c., 1 oz. 15c., 2 oz. 25c., $\frac{1}{4}$ lb. 40c., 1 lb. \$1.50, postpaid.

EIGHT VARIETIES, MIXED

870 Pkt. 10c., 1 oz. 15c., 2 oz. 25c.

JAPANESE CLIMBING

869 Rust resisting. Vines are very healthy and vigorous, with dark green foliage, and throw out strong tendrils, enabling them to climb trellis, wire netting or any other suitable support. Pkt. 10c., 1 oz. 15c., 2 oz. 25c., $\frac{1}{4}$ lb. 40c., 1 lb. \$1.50, postpaid.

EGG PLANT

CULTURE. Plant the seed in March in a hotbed, or, for family use, in flower pots in a warm window. Transplant in open ground after weather has become warm and settled, in rows 2 feet apart each way. They require rich soil and as favorable a location for warmth as the garden will afford. One ounce to 1000 plants.

BLACK BEAUTY

877 125 days. Considered the earliest of the large-fruited varieties. Color a rich purple. Pkt. 10c., $\frac{1}{2}$ oz. 35c., 1 oz. 55c., $\frac{1}{4}$ lb. \$1.50.

ENDIVE

CULTURE. For early use sow as soon as the ground can be worked in the spring, in drills 15 inches apart, and thin plants to 6 to 8 inches in a row. Any common garden soil will do, but a rather moist situation is preferable. To blanch the leaves, gather them carefully together when perfectly dry, and tie with matting or any soft fibrous materials. Valuable as a food for those who suffer with indigestion. One ounce will sow 150 feet of drill.

FINE MOSS CURLED

883 100 days. Very ornamental. A little more curled than the London. Same price as Batavian.

BROAD-LEAVED BATAVIAN

885 100 days. A large summer variety. Pkt. 10c., 1 oz. 15c., $\frac{1}{4}$ lb. 40c., 1 lb. \$1.30, postpaid.

FENNEL

Sow early in spring, in rich, well prepared soil. The rows should be 2 feet apart and the seeds covered $\frac{1}{4}$ to $\frac{1}{2}$ inch deep. When the plants are about 2 inches tall, thin to 10 inches apart in the row. When half grown, if the plants are earthed up and treated like celery, the stems will be white, crisp, and palatable.

FLORENCE (Sweet Anise)

FLORENCE (Sweet Anise). The bulb at the base of this hardy annual may either be sliced raw, or cooked. The crisp stalks above are often eaten like celery. If covered with soil, the bulb will blanch to a fine creamy white. The plant is branching and has dense feathery foliage that gives off a sweet aroma. Pkt. 10c., oz. 25c., $\frac{1}{4}$ lb. 75c.

KALE or BORECOLE

CULTURE. Plant the larger sorts in hills 2 by 3 feet apart, and thin to one plant to the hill. Select deep, rich soil and cultivate as Cabbage. Some of the varieties are very ornamental, and scattered singly are attractive in the flower garden, being finely curled and variegated with green, yellowish-white, bright red and purple leaves. The tender leaves are used as Cabbage. One ounce of seed will sow about 200 feet of row — four pounds of seed per acre.

DWARF GREEN CURLED

886 55 days. Very hardy; a standard market sort. Dwarf spreading variety a foot in height.

GREEN CURLED TALL SCOTCH

887 60 days. One of the best varieties for the market. 3-4 feet tall with long plume like leaves. Pkt. 10c., oz. 15c., 2 oz. 25c., $\frac{1}{4}$ lb. 40c., lb. \$1.00, postpaid.

LETTUCE

CULTURE. Lettuce covets a rich and rather moist soil. The rows should be about 14 inches apart, and the plants thinned from 8 to 10 inches apart for the heading varieties. When heads are not desired it may be grown in a mass. The more rapid the growth the better the quality. Some varieties are peculiarly adapted for early culture, others for summer growth. One ounce for 3000 plants.

GREGORY BLACK-SEEDED TENNIS BALL

896 71 days. (SEE ILLUSTRATION). Our strain of this variety is considered the standard for quality, excellence and purity. A decidedly butter variety, strictly Cabbage-heading, medium in size, slow to run to seed. Plant compact or slightly spreading, and forming a globular, firm, very defined, well-blanching head, with leaves very closely overlapping one another. A sure header, very reliable, hardy, excellent shipper and good seller. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 50c., lb. \$1.75, postpaid.

MAY KING

895 75 days. It is not in the least affected by cold or wet weather, grows very quickly, and produces even in poor soil splendid globular heads, which are ready 10 to 14 days before any other, and stand a long time before running to seed. In flavor unexcelled by any sort. Sown extensively in greenhouses during the winter for the Boston Market. Pkt. 10c., oz. 20c., 2 oz. 35c., $\frac{1}{4}$ lb. 65c., lb. \$2.00, postpaid.

UNRIVALED

900 78 days. White headed similar to Big Boston but with no tint of brown and the head is of a whitish green. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 50c., lb. \$1.75, postpaid.

GRAND RAPIDS

901 60 days. (Black Seed). Loose-leaf in some section forced under glass for winter, less liable to rot and remains in condition longer than some, after being cut. Leaves bright green, savoyed, finely crimped at the edges. Quality excellent. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 50c., lb. \$1.75, postpaid.

BLACK-SEEDED SIMPSON

905 Excellent for out-door sowing. Exceedingly tender, golden yellow, loose leaved, finely fringed. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 50c., lb. \$1.75, postpaid.

EARLY PRIZE HEAD

906 White seeded, Bronze leaf. An acquisition; runs to seed slowly; very tender and of fine flavor. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 50c., lb. \$1.75, postpaid.

BIG BOSTON

907 78 days. (White Seeded). The heads of this lettuce are firm and solid. A standard market garden and shipping variety. Excellent for forcing in cold frames, during the winter months. Produces heads of large size often measuring 10 to 12 inches across, succeeds in cold temperatures better than many forcing varieties. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 50c., lb. \$1.75, postpaid.

MAMMOTH BUTTER

908 (Black Seed). A cabbage, butter head, large size, medium green. Similar to Salamander but fully a third larger. Leaves smoother than Salamander. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 50c., lb. \$1.75, postpaid.

KOHLRABI

CULTURE. Prepare ground as for Cabbage, then plant about the first of June in rows 2 feet apart, thinning the plants to 12 inches in the rows. To preserve over winter treat as Turnips. When young their flesh is tender and resembles a fine Ruta-Baga, with less of the Turnip flavor. When fully matured, they are excellent for stock. One ounce of seed will sow about 250 feet of row.

EARLY WHITE VIENNA

890 A standard early kind.

LARGE PURPLE VIENNA

891 Very large, hardy and productive. Pkt. 10c., $\frac{1}{2}$ oz. 15c., oz. 25c., $\frac{1}{4}$ lb. 80c., lb. \$3.00, postpaid.

Gregory's Black-Seeded Tennis Ball Lettuce

ALL SEASONS

912 77 days. The foremost mid-season butterhead Lettuce, surpassing in heat resisting qualities every other sort in its class. Forms good-sized, compact heads of dark green color. It "stands" a considerable time before going to seed after heads are fully matured. Very much resembles Old Deacon, but is black-seeded and the edges of leaves are fine toothed. No better butterhead Lettuce for summer use can be found. It stands longer than any and the quality is always superb. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 50c., lb. \$1.75, postpaid.

NEW YORK OR ICEBERG

914 87 days. One of the favorite varieties with the market gardeners about New York City, and especially in California. Originated from the Giant Crystal Head. This variety is distinguished by the rich golden yellowish color on the inside of the heart. The outside leaves are dark green; the heads somewhat conical in shape, rather solid and of enormous size, measuring 15 inches across. Pkt. 10c., $\frac{1}{2}$ oz. 20c., $\frac{1}{4}$ lb. 85c., lb. \$2.25, postpaid.

NOTICE

Free flower seed offers.
See 3d and 4th Covers.

HANSON

918 86 days. Our Hanson is the improved strain. Its heads grow to a remarkable size, sweet, tender and crisp even to the outer leaves; the Hanson is free from any bitter taste found in some sorts. For outdoor cultivation it is hard to beat if grown on ground well manured and well cultivated. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 50c., lb. \$1.75, postpaid.

WHITE PARIS COS

921 82 days. The standard Cos variety. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 50c., lb. \$1.75, postpaid.

GREGORY'S FINE MUSKMELONS

CULTURE. Select warm and light soil, a poor, light soil is better than a cold and rich one. Thoroughly work the soil; manure with a rich fertilizer or a rich compost, having the hills 6 feet apart for the musk varieties and 8 for Watermelons. Do not excavate hills, but work the manure just under the surface, as the roots of all vines naturally seek warmth. Pinch the ends of the more vigorous vines from time to time and work in a fertilizer between the rows. Plant a dozen or more seeds in each hill, but do not leave over two plants. Sprinkle young plants liberally with plaster or Pyrox to protect from insects.

Green-Fleshed

ROCKY FORD, OR NETTED GEM

925 Fruits are nearly round, covered with netting. Green flesh, very sweet and highly flavored. Uniform in shape and size. An excellent shipping Melon. Very productive. Size $5\frac{1}{2} \times 5$ inches; edible in 96 days. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 50c., lb. \$1.50, postpaid.

BUSKIRK BLIGHT AND RUST PROOF CANTELOUPE

926 95 days. A Japanese rust-proof variety crossed with the famous Rocky Ford strain green-flesh. This crossing has given them splendid quality, besides making them better shippers. One customer writes: "I have been growing Cantaloupes on a large scale for 10 years, but find yours the most prolific yielder, the sweetest, the thickest-fleshed, and after they have been in the market 3 days they are in better condition than others that are but 12 hours from the vines." Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 50c., lb. \$1.50, postpaid.

Salmon-Fleshed

LAKE CHAMPLAIN

931 87 days. Very early takes from 70 to 90 days to mature. A vigorous and healthy vine, producing fruit in great abundance. Melons medium size of Hackensack type. Very sweet of a golden yellow color. Size $6 \times 5\frac{1}{4}$ inches; weight 3 lbs. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 50c., lb. \$1.50, postpaid.

HONEY DEW MELON

932 Averages 9 inches long by 7 inches wide. Color light greenish white until dead ripe when it turns to a pale yellow. In order to develop it in this part of the country, start in pots under glass. On account of the delicious flavor it commands a ready sale. Pkt. 10c., oz. 20c., 2 oz. 35c., $\frac{1}{4}$ lb. 60c., postpaid.

HEARTS OF GOLD

935 88 days. One of the best varieties for shipping. Distinctly ribbed and covered with a fine netting. Flesh a rich salmon shade thick meated, ripens close to the rind and is of excellent quality. Fruit uniform. Size 6×5 inches; weight about 2 pounds. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 50c., lb. \$1.50, postpaid.

THE MILLER CREAM OR OSAGE

942 95 days. This Melon, which we were the first to name and catalogue, has deservedly become exceedingly popular, probably more so than any other Muskmelon; a cross between those two delicious Melons, Sill's Hybrid and Casaba, growing rather larger and maturing a little later than the former. The flesh is of a rich salmon color, very sweet and so very thick that the Melon is almost solid, with a small seed cavity. Very productive. Size $8 \times 6\frac{1}{2}$ inches; weight 6 lbs. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 50c., lb. \$1.50, postpaid.

NASTURTIUMS

CULTURE. Plant in May in rows 3 feet apart, the climbing varieties to cover some arbor or fence, or climb or twine around the house, the dwarf kind in hills or in rows 2 feet apart. The leaves are used for salad.

TALL

980 An ornamental climber. Several fine varieties mixed. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 35c., lb. 90c., postpaid.

DWARF

981 Several fine varieties are included in this mixture. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 35c., lb. 90c., postpaid.

BURRELL'S GEM

937 95 days. Resembles Rocky Ford very much in shape, but the flesh is of a rich, dark salmon or orange color, is very thick, fine-grained and deliciously rich and spicy in flavor; rind thin but tough. Has a remarkably small seed cavity. Skin rather dark green, finely netted and slightly ribbed. Size $6\frac{1}{2} \times 5$ inches; averaging in weight about 2 pounds. An excellent shipper. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 35c., lb. \$1.25, postpaid.

EMERALD GEM

938 87 days. Of the Christiana type, small in size, very early and in form flat-round. The flesh is of a deep orange color and very thick, the seed cavity being exceptionally small. They are very sweet and the flavor delicious the Melon being always good. Size 4×5 inches; weight $1\frac{3}{4}$ to 2 lbs. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 35c., lb. \$1.25, postpaid.

BENDER'S SURPRISE

940 94 days. A favorite in the vicinity of Albany, N.Y., of delicious flavor. Oval shape, large, coarse netted, skin light greenish yellow. Flesh deep orange and very thick. Will keep for a week, after picking and flavor improves. Size 8×6 inches; weight 7 lbs. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 50c., lb. \$1.75, postpaid.

Miller Cream

BANANA

943 94 days. Externally it is of a creamy white or delicate straw color. The flesh (the Melon being nearly solid) is of a rich salmon. The quality is first rate when the Melons are thoroughly ripe. It grows from 18 inches to 2 feet in length and is very prolific. When ripe it smells like a Banana. Weight about 7 lbs. Pkt. 10c., oz. 25c., $\frac{1}{4}$ lb. 75c., postpaid.

LONG YELLOW

945 94 days. Very long, large and with salmon flesh heavily netted and ribbed. One of the largest of the pink flesh sorts; exceptionally sweet and spicy. Early, but not suitable for shipping. Size 9×6 inches; weight 10 lbs. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 65c., lb. \$2.00, postpaid.

OKRA OR GUMBO

CULTURE. Select warm and rich soil, and plant when the ground becomes warm, in rows 2 feet apart, thinning plants a foot apart in the row. The pods are used to thicken soups, being gathered when young. In the North they require the warmest location, and it is better to start them in a hotbed. The seeds are a long time in germinating.

WHITE VELVET

982 Pods smooth, exceedingly tender and well flavored; very prolific. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 20c.

KLECKLY'S FAVORITE

984 Plants grow $2\frac{1}{2}$ to 3 feet tall and bear smooth, white pods at each leaf joint. Pods about 6 inches in length. Fairly uniform in thickness. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 20c., postpaid.

PERKINS MAMMOTH

985 Very prolific, when ready for use. Is from 4 to 5 inches in length, of a handsome green color. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 20c., postpaid.

WATERMELONS

CULTURE. In cultural requirements these differ little from Muskmelons, except that they should be planted in hills about 10 feet apart each way. After the vines begin to spread, cultivation should be pursued very cautiously, since Watermelon vines resent being moved about or stepped upon.

Kleckley Sweets, or Monte Cristo

948 87 days. We introduce this new Melon as a splendid sort for home use or near markets, as the flesh is tender and delicious. Vine vigorous and productive; fruit often reaching 22 inches in length and 50 pounds weight; color dark mottled green; flesh very bright, rich red and exceedingly sweet. Pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 75c., postpaid.

TOM WATSON

950 92 days. No other Melon of recent introduction has attained popularity in such a comparatively short time as Tom Watson. The handsome, oblong, dark green fruits average 20 inches long and weigh from 30 to 50 pounds. While the crisp, dark red, deliciously sweet flesh extends to within $\frac{3}{4}$ inch of the rind, the Melon will stand long-distance shipment to perfection, and outsells every other Melon on the market. Pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 75c., postpaid.

SWEETHEART WATERMELON

953 88 days. Vine vigorous and productive, ripening its fruit early. Fruit large, oval, (15 x 10 inches) very heavy uniformly mottled light and dark green. Rind thin but firm. Flesh bright red, firm, solid, but very tender, melting and sweet. Fruit remains in condition for use longer than most sorts. Seeds gray. Pkt. 5 c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 75c., postpaid.

COLE'S EARLY

954 80 days. One of the finest Melons ever offered, remarkably early, and will mature in every State, very hardy, vigorous and a sure cropper. Sweet and delicate, flesh a deep red color. The rind is thin and the quality of the flesh is sustained clear to the rind. Melons medium size, nearly round, rind green striped, with lighter shades. Being somewhat brittle, it will not do for shipping purposes. Size 12 x 11 inches; weight 20 pounds. Pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 75c., postpaid.

Tom Watson Watermelon

FERRY'S PEERLESS

955 90 days. In our experimental grounds the earliest variety was the Peerless; ripened all at once and was of delicious quality. Oval to long in shape, bright green; finely veined and mottled; rind thin; flesh bright scarlet, solid, crisp, tender and very sweet. No Melon we have eaten or that we gave to our friends afforded such universal satisfaction. We recommend it for family use, and not as a shipper. Size 12 x 10 inches. Pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 75c., postpaid.

COLORADO PERSERVING CITRON

970 100 days. (Red Seeded). Perfectly round; for preserve only; hardy and very productive. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 45c., lb. \$1.05, postpaid.

HALBERT HONEY

972 87 days. A beautiful, dark, glossy green Melon of symmetrical shape and good size. A heavy bearer of fine fruits early in the season. Flesh of beautiful crimson color extends to within $\frac{1}{2}$ inch of the very thin outer rind and is literally "as sweet as sugar." Size 10 x 12 inches. Pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 75c., postaid.

MUSTARD

CULTURE. Sow in drills 1 foot apart and cover lightly. Thrives in almost any soil. Water frequently in dry weather, and for a succession sow every two weeks during the season. Used principally for salads.

CHINESE LARGE-LEAVED

975 A fine sort for greens. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 35c., lb. \$1.00 postpaid.

GREGORY'S SUPERIOR ONION SEED

CULTURE. In some parts of the country the term "Silver-Skin" denotes a white variety, in other parts a yellow variety. Please indicate in your order which you want. The soil should be free from large stones. Apply from ten to twelve cords of rich, fine compost to the acre. Plough not over 5 inches deep, and work well with the cultivator. Plough again at right angles with first furrows, and cultivate again. Now rake level and fine, and plant seed in rows 14 inches apart at rate of five pounds to the acre. Keep very clean of weeds. When ripe pull and dry very thoroughly before storing. For full particulars see our work on "Onion Raising." Plant Onion sets 2 inches apart in rows a foot apart. To grow sets, plant the seed at the rate of thirty to sixty pounds to the acre.

About Our Prices. When you are considering Onion seed don't compare ours with cheap seed. Our seed is all grown from selected bulbs of the best strains.

(If you are in need of 10 lbs., or more write us for special prices.)

Gregory's Improved Yellow Globe Onion

ONION — Continued

SOUTHPORT YELLOW GLOBE

986 110 days. In this we have a variety precisely like the Southport White and Red in shape, differing from them in color only. It may be defined as a late Globe Danvers, a larger cropper than the Early Round Yellow Danvers. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 50c., lb. \$1.75, postpaid.

EARLY ROUND YELLOW DANVERS

987 105 days. By careful selection we increased the roundness of our Early Round Yellow Danvers, until now it is a fine, large, thick Onion. The Danvers Onion does best on a gravelly loam, making harder and brighter colored bulbs than on heavy, dark or mucky soil, while it keeps better. Our strain has small necks and is very uniform in size and shape; a fine keeper of exceptionally fine quality. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 75c., lb. \$2.50, postpaid.

SOUTHPORT RED GLOBE

998 100 days. Very popular in the markets of New York. It measures better and sells at a higher price than Red Wethersfield; a heavy cropper of beautiful and symmetrical bulbs. Keeps better than the White and the Yellow Globe. The greatest market Onion of the Central West. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 65c., lb. \$2.00.

GEGORY'S IMPROVED YELLOW GLOBE ONION

(SEE ILLUSTRATION)

988 Our Early Round Yellow Danvers are crossed with the Southport Yellow Globe. Improved Yellow Globe is the result of many years of careful work; matures midway between the two. As the outside skin is somewhat tougher than the Danvers, it is more profitable as a shipping variety. It is a heavy cropper, producing one-fourth more crop than the Danvers and is less liable to blight. This is a standard variety in sections of the country where Onions are raised for cold storage. There is no variety that equals it as a keeper. Oscar Belden & Sons, the largest onion growers in the State, averaged **700 bushels per acre**. Mr. Harry Bardwell's (Hatfield) crop yielded over **800 bushels per acre**. Albert E. Clark, Sunderland, states that he had over **3,000 bushels on four acres** of Onions from our seed. Pkt. 15c., oz. 25c., $\frac{1}{4}$ lb. 75c., lb. \$2.50, postpaid.

Prizetaker Onion. American Grown Seed

LARGE RED WETHERSFIELD

996 110 days. This is the famous old standby, a thick flat red. It is hardy, later than Danvers. Pkt. 10c. oz. 20c., $\frac{1}{4}$ lb. 75c., lb. \$2.00, postpaid.

THE EARLY YELLOW CRACKER ONION

989 100 days. Is the earliest of all our yellow sorts and is an excellent kind to raise where the seasons are short. It is best of all the yellow Onions in quality. Pkt. 10c., oz. 25c., $\frac{1}{4}$ lb. 75c., lb. \$2.50, postpaid.

SOUTHPORT WHITE GLOBE

990 110 days. About as white and handsome as a newly made snowball. Too late to grow safely north of Massachusetts. A tremendous cropper; To get a very fine white Onion, pull just as they begin to go down and dry in an airy and shady place. Pkt. 10c., oz. 25c., $\frac{1}{4}$ lb. 85c. postpaid.

WHITE PORTUGAL

992 95 days. A very early and mild flavored onion with a silvery white skin, flesh snow white. Should be harvested before being thoroughly ripe and cured in the shade, in order to hold its snow white color. Extensively planted for sets and pickles. Pkt. 15c., oz. 25c., $\frac{1}{4}$ lb. 75c., lb. \$3.00 postpaid.

YELLOW PRIZETAKER

1001 120 days. (SEE ILLUSTRATION). This is the large, handsome, straw-yellow Onion sold at the fruit stands and delicatessen stores of the large cities at fancy prices. Well developed bulbs average 11 to 12 inches in circumference, are perfectly globular and very solid. Skin is thin, flesh, pure white, fine grained and of a mild, delicate flavor. Market Gardeners in this section start Prizetaker in hotbeds in February, transplanting to open ground as soon as soil may be worked in the spring. Pkt. 10c., oz. 25c., $\frac{1}{4}$ lb. 75c., lb. \$2.50, postpaid.

Foreign Varieties of Onions**WHITE PEARL, OR NEW QUEEN**

1006 95 days. A new white Onion; excepting Barletta, the earliest of all, as fine as it is early. Pkt. 15c., oz. 25c., $\frac{1}{4}$ lb. 85c., lb. \$3.00.

BARLETTA

1005 85 days. The earliest of all Onions; white; grows about $1\frac{1}{4}$ inch in diameter. Pkt. 10c., oz. 30c., $\frac{1}{4}$ lb. 85c., lb. \$3.00.

ONION SETS

For Spring Planting

Prices Subject to Change

White Bottom Sets. 1 lb. 35c., 4 lbs. \$1.15. 8 lbs. \$2.00, postpaid.

Yellow Bottom Sets. 1 lb. 30c., 4 lbs. \$1.00. 8 lbs. \$1.75, postpaid.

PARSLEY

CULTURE. Select rich soil and sow the seed in drills 1 foot apart, covering $\frac{1}{2}$ of an inch deep. The seed is usually from 15 to 25 days vegetating. Thin plants to 4 inches apart when 2 inches high. It is used principally for flavoring soups, etc.

ARLINGTON DOUBLE MOSS CURLED

1008 65 days. A market gardener's strain. One of the most successful of these says of it: "The plant is very robust and of free growth. The leaves are large, very dark green and beautifully curled. An exceedingly large yielder, stands heat, cold and drought better than any other." Oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 75c., postaid.

PLAIN OR SINGLE

1011 70 days. Extensively grown by Italians and Greeks. Oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 75c.

J.E. THURBER, BARRE, VT., writes:—For the past three years I conducted a small market garden and feel that my success is due largely to the use of your seed. My vegetables are of a finer quality than those produced by my neighbors who used a different brand of seed.

H.E. GREEN, TOOPERANG, GINNISS, SOUTH AUSTRALIA, writes:—I believe John Baer Tomato is one of the best tomatoes that ever came to South Australia.

PARSNIP

CULTURE. Give the richest and deepest soil to the long varieties of Parsnip. Make the soil very fine, and plant the seed very early in rows of 18 inches apart, thinning plants to 3 to 5 inches in the rows. These seeds should be planted shallow. To keep well in the ground over winter draw a little earth over the tops. Five lbs. of seed per acre.

Abbott's Improved Hollow Crown Parsnips

ABBOT'S HOLLOW CROWNED

1013 130 days.

Market gardeners throughout the country have found by experience that there is no strain equal to Gregory's Prize Parsnip, as it takes prizes wherever exhibited. The roots are long, but not too long. It has a very clear, smooth skin, and is easily distinguished by the leaves rising from a depression on the top of the root. Parsnips do best on a deep rich, sandy soil, but will do well on any soil that has good depth. Pkt. 10c., oz. 20c., ¼ lb. 40c., lb. \$1.00, postpaid.

PEAS

CULTURE. The following that are wrinkled varieties, the sweetest of all, but, being liable to rot, need to be planted thicker and later than the round sorts. While the tall sort will run too much to vine if liberally manured, the dwarf varieties, on the contrary, need liberal manuring. Have the dwarfs that grow not over 15 inches high in rows 2 ½ feet apart; those varieties attaining the height of from 2 to 3 feet in rows 3 feet apart and the rows of the tallest sort 4 feet apart. Two pounds to 150 feet — 1018 and 1019 are exceptions.

GREGORY'S PEDIGREE EXTRA EARLY

1018 47 days. The Gregory's Pedigree Extra Early is the purest strain of very early Peas ever offered to the trade. The pods are good length and well filled, and the strain is prolific, exceptionally uniform in growth and free from spots. It is without question the best strain of Extra Early Peas ever offered to the trade. Pkt. 10c., ½ lb. 20c., lb. 35c., 2 lbs. 60c. postpaid; by freight prepaid, 7 ½ lbs. \$1.30, 15 lbs. \$2.50, 60 lbs. \$9.00

ALASKA

1019 45 days. A blue Pea of fine quality, besides being extra early; growing in favor. Pkt. 10c., lb. 40c., 2 lbs. 60c., postpaid; by freight prepaid, 7 ½ lbs. \$1.30 15 lbs. \$2.50, 60 lbs. \$8.75

NOTT'S EXCELSIOR

1028 This has gained the position of the standard first early Pea. It is as early as the American Wonder, while the pods are larger, fully as well filled, and there are more of them. It grows half taller than the American Wonder, and is a much heavier cropper. Pkt. 10c., ½ lb. 20c., lb. 35c., 2 lbs. 60c. postpaid; by freight, prepaid 7 lbs. \$1.75, 14 lbs. \$3.00, 56 lbs. \$10.00.

LAXTON'S PROGRESS PEA

1025 Our growers report after a very careful trial with all other dwarf growing large podded early varieties we pronounce this by far the best. It grows 1 ½ to 2 feet tall and most of the plants average 8 to 10 dark green pods each containing 9 or 10 very delicious peas. For the home garden or market it should eventually displace many well-known varieties. Pkt. 10c., ½ lb. 25c., lb. 40c., 2 lbs. 65c., postpaid; by freight, prepaid, 7 lbs. \$1.75, 14 lbs. \$3.00, 56 lbs. \$10.50.

Little Marvel Pea

LITTLE MARVEL

1026 Grows to the height of 18 inches, and is very uniform in its growth. In England it is used as a forcing Pea; pods very dark green in color, containing from 5 to 7 peas on the average, and of excellent flavor. A fine family pea. It was planted in our experimental grounds May 15, and was ready to pick July 9. (See Illustration). Pkt. 10c., ½ lb. 20c., lb. 35c., 2 lbs. 60c., postpaid; by freight, prepaid 7 lbs. \$1.75, 14 lbs. \$3.00, 56 lbs. \$10.50.

PIONEER

1027 57 days. The plant is unusually robust in habit, carries a heavy crop of long, pointed pods of a dark green color. So numerous are the pods that the plants present a most striking appearance. One gardener stated that he planted April 1, and the first pods were harvested June 16, beating Gradus by a fortnight. A Giant dwarf, grows about 24 inches high. Pkt. 10c., ½ lb. 25c., lb. 40c., 2 lbs. 65c., postpaid; by freight prepaid, 7 lbs. \$1.75, 14 lbs. \$3.00, 56 lbs. \$10.50.

AMERICAN WONDER

1030 Time-honored early dwarf wrinkled Pea. Pkt. 10c. ½ lb. 20c., lb. 35c., 2 lbs. 60c., postpaid; by freight, prepaid, 7 lbs. \$1.50, 14 lbs. \$2.75, 60 lbs. \$10.00

Pioneer Pea

Peas — Continued

GREGORY'S SURPRISE

1038 47 days. (Our introduction). This pea we named and introduced, is the earliest of all the wrinkled sorts. It will be found to be even earlier than the Alaska and Maud S. The vines grow from 20 to 24 ins. in height and need no sticking. Though fully as early as the earliest hard sorts in delicious sweetness, good judges claim that it is unequalled. Every family garden should have this Pea. The best of all first early, wrinkled varieties. A favorite with canners on account of its delicious flavor. Pkt. 10c., $\frac{1}{2}$ lb. 25c., lb. 35c., 2 lbs. 60c., postpaid; by freight, prepaid, 7 lbs. \$1.75, 14 lbs. \$3.00, 56 lbs. \$10.50.

GREGORY'S EARLY EXCELSIOR

1024 57 days. (SEE ILLUSTRATION). Without any exception, the finest low-growing early Pea. We expect a fine lot this season, but the demand is so large we would advise our customers to order early. Very hardy and can be planted early. It differs from Nott's Excelsior (one of our introductions) in that, first, it is better than its American cousin; second, the pods and peas are decidedly larger, and third, the vines, while of the same height, are stouter, while fourth, it is decidedly a better cropper. We especially recommend it as an excellent sort to plant between rows of strawberries. Pkt. 10c., $\frac{1}{2}$ lb. 25c., lb. 40c., 2 lbs. 70c., postpaid; by freight, prepaid, 7 lbs. \$1.75, 14 lbs. \$3.00, 56 lbs. \$10.50.

Gregory's Early Excelsior

BLISS EVERBEARING

1049 Very productive; peas large, delicious, continues long in bearing. Pkt. 10c., $\frac{1}{2}$ lb. 20c., lb. 35c., 2 lbs. 60c., postpaid; by freight; prepaid, 7 lbs. \$1.75, 14 lbs. \$3.00, 56 lbs. \$10.00

Marchioness Peas

THE GRADUS

1034 60 days. (SEE ILLUSTRATION). This is undoubtedly one of the earliest of all the large-podded, wrinkled Peas yet introduced. Planted April 25, will be ready for market July 4. The quality of the Pea, with its extreme earliness, make it a decided acquisition to the family garden. Pkt. 10c., $\frac{1}{2}$ lb. 25c., lb. 40c., 2 lbs. 70c., postpaid; by freight, prepaid, 7 lbs. \$1.75, 14 lbs. \$3.00, 56 lbs. \$11.00.

MARCHIONESS PEA

1039 (SEE ILLUSTRATION).

Marchioness is a very early green, wrinkled variety, height 3 ft., heavy cropper, pods large, straight, dark green and well filled. The originator says: "We consider it one of the finest and most valuable Pea we have ever put on the market. When tested alongside Gradus it proved to be several days earlier, with larger pods and a much heavier cropper." Our experimental grounds show us that this is a coming Pea. Pkt. 10c., $\frac{1}{2}$ lb. 25c., lb. 40c., 2 lbs. 75c., postpaid; 7 lbs. \$2.00, 14 lbs. \$3.50, 56 lbs. \$12.00, by freight.

THOMAS LAXTON

1040 One of the finest eating and most productive of the large podded early sort pods; blunt shaped; dark colored: $3\frac{1}{2}$ inches long. Fit for the table in 60 days. Pkt. 10c., $\frac{1}{2}$ lb. 20c., lb. 35c., 2 lbs. 60c., postpaid; by freight, prepaid, 7 lbs. \$1.50, 14 lbs. \$2.75, 56 lbs. \$10.00.

ogerm.**

See page 7

Early Morn Pea

EARLY MORN

1042 (SEE ILLUSTRATION). It is earlier than either Thomas Laxton or Gradus. Planted May 5, a mess was picked July 4 (60 days). We found that not only is Early Morn earlier, but it has larger pods and is decidedly a better cropper than Gradus. Davis Evans Low of Essex states: "From one bushel of seed I raised 80 bushels, that sold from \$3.00 to \$3.50 per bushel." Every one should plant this Pea if he wants an extra large, dark-podded Pea for the 4th of July market. Pkt. 10c., $\frac{1}{2}$ lb. 25c., lb. 40c., 2 lbs. 75c., postpaid; by freight, prepaid, 7 lbs. \$2.00, 14 lbs. \$3.50, 56 lbs. \$10.50.

ADMIRAL DEWEY PEA

1045 70 days. We agree with the originator in his claims for this excellent Pea, without exception the largest podded Pea grown; a tremendous cropper; very dark green pod, of excellent quality. The very best of the late varieties. Height $3\frac{1}{2}$ feet; foliage, vine and pod a rich, dark green. Remarkably healthy and vigorous, producing abundance of pods of largest size, sometimes 6 inches in length, well filled with Peas of large size, tender, and of first-class flavor. Pkt. 10c., $\frac{1}{2}$ lb. 25c., lb. 40c., 2 lbs. 70c., postpaid; by freight, prepaid, 7 lbs. \$1.75, 14 lbs. \$3.00, 56 lbs. \$10.00

ALDERMAN

1047 70 days. (SEE ILLUSTRATION). The finest of all midseason varieties. It matures just after the extra early sorts, like Thomas Laxton and Gregory's Excelsior, and before Telephone and Champion of England begin to bear. Alderman grows 4 to 5 feet tall under favorable conditions. The handsome pods are borne in pairs averaging 4 inches long, and contain approximately 8 large, dark green peas of elegant flavor. Pkt. 10c., $\frac{1}{2}$ lb. 25c., lb. 40c., 2 lbs. 70c., postpaid; by freight, prepaid, 7 lbs. \$1.75, 14 lbs. \$3.00, 56 lbs. \$10.00

Improved Stratagem Pea

PEAS — Continued

IMPROVED STRATAGEM

1052 70 days. (SEE ILLUSTRATION). Fine for general crop, pods of immense size with dark green peas, a heavy cropper, often 20 large, well filled pods to a vine. Quality excellent. Height 20 inches. Price same as Dwarf Champion. Pkt. 10c., $\frac{1}{2}$ lb. 20c., 1 lb. 35c., 2 lbs. 60c., postpaid, by freight, prepaid, 7 lbs. \$1.75, 14 lbs. \$3.00, 56 lbs. \$10.50.

MARKET GARDEN

1056 A tremendous cropper, doubly outyielded the best of 28 varieties. Pkt. 15c., $\frac{1}{2}$ lb. 20c., 1 lb. 35c., 2 lbs. 60c. postpaid; by freight, prepaid, 7 lbs. \$1.50, 14 lbs. \$2.75

IMPROVED TELEPHONE

1060 70 days. Remarkably large, dark green pods and Peas attract customers. Pkt. 15c., $\frac{1}{2}$ lb. 25c., 1 lb. 40c., 2 lbs. 65c., postpaid, by freight, prepaid, 7 lbs. \$1.75, 14 lbs. \$3.00, 56 lbs. \$10.00

CHAMPION OF ENGLAND

1062 An old favorite; very productive. Pkt. 15c., $\frac{1}{2}$ lb. 20c., 1 lb. 35c., 2 lbs. 65c., postpaid; by freight, prepaid, 7 lbs. \$1.75, 14 lbs. \$3.00, 56 lbs. \$10.00

GREGORY'S HONEST SEEDS GROW
AND PRODUCE RESULTS

PEPPERS**CHINESE GIANT**

1064 150 days. Size 4 by 4 inches, its a monster. Plants about 2 feet in height; strong, vigorous and productive. Fruit similar in shape to Large Bell or Bull Nose, is deep scarlet in color. The flesh is very thick and sweet. Pkt. 10c., $\frac{1}{2}$ oz. 35c., 1 oz. 65c., $\frac{1}{4}$ lb. \$2.00.

ROYAL KING

1065 140 days. A heavy cropper of large square uniform peppers. Fruits are thick fleshed of dark glossy green, changing to brilliant red when ripe. Size $3\frac{1}{2}$ by 4 inches. Pkt. 10c., $\frac{1}{2}$ oz. 25c., 1 oz. 40c., $\frac{1}{4}$ lb. \$1.30.

RUBY KING

1066 140 days. Average size $2\frac{1}{2}$ by $4\frac{1}{2}$ inches. Flesh good thickness, mild and sweet. Frequently 20 to 30 large peppers on a plant at one time; when ripe are bright red in color. Pk. 10c., $\frac{1}{2}$ oz. 25c., 1 oz. 40c., $\frac{1}{4}$ lb. \$1.30.

LARGE BELL, OR BULLNOSE

1068 140 days. A standard sort. Pkt. 10c., $\frac{1}{2}$ oz. 25c., 1 oz. 45c., $\frac{1}{4}$ lb. \$1.25.

SQUASH, OR FLAT

1069 130 days. The variety generally planted for family use. Pkt. 10c., $\frac{1}{2}$ oz. 25c., 1 oz. 40c., $\frac{1}{4}$ lb. \$1.25.

NEAPOLITAN

1070 125 days. One of the earliest peppers in cultivation. A wonderful bearer of uniform fruits, about $3\frac{1}{2}$ inches long by $1\frac{1}{2}$ inches wide; of light green color, changing to brilliant red. Pkt. 10c., $\frac{1}{2}$ oz. 30c., 1 oz. 50c., $\frac{1}{4}$ lb. \$1.50.

THE NEAPOLITAN PEPPER is the variety that is grown by the Italian gardeners in the vicinity of Boston Market. Extensively used for stuffing.

Ruby King

Neapolitan

PERFECTION PIMENTO

1073 130 days. Came from Spain. A late variety of medium size, smooth as a glove. Dark green, changing to a brilliant red. About 5000 acres of this pepper planted for canning in 1922. Pkt. 10c., $\frac{1}{2}$ oz. 30c., 1 oz. 50c., $\frac{1}{4}$ lb. \$1.50.

CAYENNE

1080 Small, long and tapering; very hot; best for seasoning pickles. Pkt. 10c., $\frac{1}{2}$ oz. 30c., 1 oz. 50c., $\frac{1}{4}$ lb. \$1.50.

Chinese Giant

Perfection Pimento

Royal King

GREGORY'S SUPERIOR POTATOES

PRICES REPRESENT VALUES AT THE TIME THIS CATALOGUE WENT TO PRESS
AND ARE SUBJECT TO MARKET CHANGES

Price per lb. 30c., 3 lbs. 75c., postpaid, all varieties

For large quantities write for prices — All our potatoes are grown in Maine

Terms on potatoes: Cash with order

Eleven to twelve bushels per acre. One peck will plant 65 to 75 hills. Use one to two tons of potato fertilizer per acre. If you can get stable manure use ten cords per acre.

THE IRISH COBBLER (CERTIFIED)

Leading variety for extra early market. It bears larger sized tubers, is a splendid cropper. This variety is displacing many of the heretofore standard early varieties. Our stock is raised in Maine.

SPAULDING ROSE (CERTIFIED)

Later than the Irish Cobbler, with pinkish skin; a heavy cropper and excellent quality.

GREEN MOUNTAIN (CERTIFIED)

Vines are strong and vigorous. A tremendous cropper with white skin. Quality the best.

RURAL RUSSETT

A superior late variety. Selection from Dibbler's Russet valuable on account of its freedom from disease. It is white, with a russet skin, very regular in size, and unsurpassed for cropping qualities. Eyes are on the surface so there is practically no waste in peeling.

GOLD COIN

We don't see why any farmer with soil in fair condition cannot raise 325 bushels of Gold Coin to the acre. It is white-skinned, and has that rich, russety appearance which is the delight of Potato growers.

NORCROSS

The Norcross is a white Potato. Originated by Charles Norcross, Litchfield, Maine in 1895.

The secretary of the Johnson Seed Potato Co. (E.A. Rogers) writes that from a measured acre they harvested over 550 bushels. In every state from Maine to Minnesota it has been a prize winner, adapting itself to all conditions of soil and climate.

A White Variety, smooth, good size, excellent quality and a heavy cropper.

THE IMPROVED DELAWARE

It is seldom we find such a combination of size, yield and quality in any Potato. It is a medium early; in size it is large, being above the average; skin and flesh are white; in yield it is a remarkable cropper, while in quality it is unsurpassed. It is one of the few varieties that do well on all kinds of soil. There is no potato that has stood so many years and given such universal satisfaction among our customers.

PUMPKINS

CULTURE. In general cultural requirements these differ little from Squashes, for which full directions are given on page 26. However, while Squashes are generally grown as a separate crop, Pumpkins are most of the time planted with Field Corn.

SUGAR

1082 75 days. (SEE ILLUSTRATION). Excellent as a good table delicacy either simply boiled or when entering into the composition of the traditional Pumpkin pie. When fed to cows it enriches the quality and increases the flow of milk, besides imparting to it a rich yellow. Fine grained. Grows to average five pounds; yields enormously; size 8 by 10 inches, weight 6 to 7 lbs. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 25c., lb. 85c., postpaid.

LARGE CONNECTICUT FIELD

1088 90 days. Good for stock; usually grown amongst Field Corn; size 18 by 12 inches. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 25c., lb. 85c., postpaid.

GOLDEN OBLONG

1089 Very productive. Pumpkins from 15 to 20 inches in length and 8 to 10 inches in diameter. Skin of a rich golden orange, thin but tough, making it almost as good a keeper for winter as the hard shell Squashes. Flesh is light golden yellow of very rich, fine quality — so says the introducer. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 25c., lb. 85c., postpaid.

RADISHES

CULTURE. For early use sow in spring as soon as the ground can be worked, in drills 6 to 10 inches apart, covering seed half inch deep. Thin plants an inch apart in the row. As the roots are more succulent and tender when grown quickly a rich, light soil should be preferred, and frequent watering in dry weather will be found beneficial. For a succession, sow every two weeks.

EARLIEST AND FORCING VARIETIES

CRIMSON GIANT

1090 32 days. Quite a new type among Radishes. The Crimson Giant gain a circumference of 5 to 6 inches and a weight of about $1\frac{1}{4}$ to 2 ounces without losing in delicacy and tenderness. When sowing allow plenty of space for their proper development. This novelty combines the advantages of a good hothouse Radish with that of a Summer Radish, and there is certainly a great future in store for it. The roots are quite round, sometimes a little oval. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 25c., lb. 85c., postpaid.

SCARLET TURNIP, WHITE TIPPED

1094 28 days. The name defines this elegant new Turnip Radish. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 25c., lb. 85c., postpaid.

EARLY WHITE, SHORT-LEAVED

1096 25 days. The best white Turnip for forcing; tops remarkably short. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 45c., lb. \$1.00, postpaid.

FRENCH BREAKFAST

1097 Fine variety of the Olive Radish, scarlet body and white root. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 25c., lb. 85c., postpaid.

RADISHES

Scarlet Globe Radish

SCARLET GLOBE

1092 25 days. (SEE ILLUSTRATION). A most valuable variety for greenhouses, hotbed forcing and outdoors. It stands heat better than any other variety without growing pithy. Sells quicker than any other on account of its bright, scarlet color; extremely early, mild, crisp and tender. Matures ready for bunching in about 25 days.

Pkt. 10c., 1 oz. 15c., $\frac{1}{4}$ lb. 25c., 1 lb. 85c., postpaid.

SPINACH

CULTURE. For summer use sow early in the spring, in drills 8 inches to 1 foot apart, covering the seed 1 inch deep. Select rich soil and manure very liberally. A succession may be obtained by sowing at intervals of two weeks through the season. For very early spring use, sow in August. The plants are sometimes protected through the winter by a thick covering of straw.

VICTORIA

1109 55 days. This variety has this to recommend it, that while it fully equals the Long Standing in being slow to run to seed, it has a thicker leaf than that variety. Color a rich, dark green. 1 oz. 10c., $\frac{1}{4}$ lb. 15c., 1 lb. 35c., postpaid; by freight prepaid, 10 lbs. \$2.50

BLOOMSDALE, OR NORFOLK SAVOY

1110 45 days. Resists blight; keeps longer after cutting. 1 oz. 10c., $\frac{1}{4}$ lb. 15c., 1 lb. 35c., postpaid.

GIANT THICK-LEAVED

1113 45 days. A fine strain of the Round-leaved. Early quick grower. 1 oz. 10c., $\frac{1}{4}$ lb. 20c., 1 lb. 35c., postpaid; by freight, prepaid, 10 lbs. \$2.50

LONG SEASON

1116 60 days. Spinach is generally grown during the spring and fall months. This new variety can be planted at any time during the season; it is slower to run to seed than any other variety, an excellent variety to be sown in the spring and at monthly intervals for a continuous summer supply. The leaves are a rich, dark green color, crumpled, and of excellent quality. 1 oz. 10c., $\frac{1}{4}$ lb. 15c., 1 lb. 35c., postpaid; by freight, prepaid, 10 lbs. \$2.50

NEW ZEALAND

1120 (SEE ILLUSTRATION). New Zealand Spinach should be planted in rows at least 3 feet apart and the plants should be thinned to stand 2 feet apart in the row. They will make a rather spreading growth, each plant "carpeting" 2 to 3 feet. Both leaves and stalks of the plant are very brittle, full of flesh and furnish, when cooked, a Spinach of most delightful quality. Do not plant the seeds until May 1. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 25c., lb. 75c., postpaid.

HOME GARDEN MIXTURE

1108 For the man who would like to plant his garden all at once, this Radish mixture offers chances to provide these crisp little delicacies during a long season. We have taken care to include in this mixture small and large kinds, round and long sorts, early and late varieties. From the time the first little round Turnip Radishes are ready to the time that one can enjoy the large summer sorts, this mixture will provide an uninterrupted supply. All sorts included are of very best quality — just right for the home garden. Pkt. 10c., 1 oz. 15c., $\frac{1}{4}$ lb. 25c., 1 lb. 85c., postpaid.

ICICLE—Long Varieties

1100 30 days. A handsome, first-class early variety, in color snowy white. It grows to the average length of the long varieties, but holds its fullness well down to the tap-root. Exceedingly attractive and excellent in every way. One of the earliest varieties; nothing equals it for family use. Pkt. 10c., 1 oz. 15c., $\frac{1}{4}$ lb. 25c., 1 lb. 85c., postpaid.

CHARTIER OR SHEPARD

1099 45 days. This Radish has rapidly grown into high favor for spring and summer use. It is very handsome, about one third of its length being of a rose color. We find them in our experimental grounds to be as early as Covent Garden. It is very popular among market gardeners. Pkt. 10c., 1 oz. 15c., $\frac{1}{4}$ lb. 25c., 1 lb. 85c., postpaid.

SELECTED LONG SCARLET

1101 30 days. A long scarlet tender crisp and sweet. Pkt. 10c., 1 oz. 15c., $\frac{1}{4}$ lb. 25c., 1 lb. 85c., postpaid

GIANT WHITE STUTTGART (Winter)

1104 Very large white summer sort. Resembles small White Egg Turnip. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 30c., 1 lb. \$1.00.

PRINCESS JULIAN

1122 A superior new second early variety of long season type most attractive appearance forming a complete rosette. The leaves are of a deep dark glossy green and much crumpled. Stands hot weather. Very slow to run to seed. 1 oz. 10c., $\frac{1}{4}$ lb. 15c., 1 lb. 35c., postpaid; by freight, prepaid, 10 lbs. \$3.00

KING OF DENMARK SPINACH

Plants are ready for cutting with the earlier varieties but remain in good condition two weeks after others have gone to seed. It is a rapid grower, has dark green crumpled thick leaves, keeps crisp and fresh a long time after cutting. 1 oz. 10c., $\frac{1}{4}$ lb. 15c., 1 lb. 35c., postpaid; by freight, prepaid, 10 lbs. \$2.50

New Zealand Spinach

SALSIFY (Vegetable Oyster)

Salsify succeeds best in a light, well enriched soil, which should be stirred to a good depth. Coarse and fresh manure should be avoided, as it will cause the roots to become irregular and branched. Sow early and quite deep, giving the general culture recommended for parsnip. The roots are perfectly hardy and may remain out all winter, but they should be dug early in spring.

1126 MAMMOTH SANDWICH ISLAND. This variety is large and strong growing with long, smooth, white, tapering roots less likely to branch than those of other sorts. Pkt. 10c., 1 oz. 30c., $\frac{1}{4}$ lb. 75c., 1 lb. \$2.50.

GREGORY'S FAMOUS SQUASHES

GREGORY'S DELICIOUS

1130 105 days. (SEE ILLUSTRATION): All agree that no Squash brought to the table approaches it in its remarkable combination of fineness and compactness of grain dryness, sweetness and exceeding richness of flavor. It grows to weigh from 5 to 10 pounds, and is in its prime mid-fall and early winter. Pkt. 10c., $\frac{1}{4}$ oz. 15c., oz. 25c., $\frac{1}{4}$ lb. 75c., lb. \$2.50, postpaid.

The DELICIOUS by Universal Assent the Best Squash for quality ever produced.

Gregory's Delicious Squash

DUNLAP'S EARLY PROLIFIC MARROW

1135 100 days. The standard early of the running varieties. No variety can compete with it for earliness, it being about 12 days ahead of the Boston Marrow. Very productive. Color a brilliant orange red; a good keeper. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 35c., lb. \$1.00, postpaid.

STRICKLER'S GIANT GOLDEN SUMMER CROOKNECK

1146 55 days. This variety of Summer Crookneck we find grows twice as large as the common sort, averaging from 5 to 6 pounds in weight. Size 14 x 4 inches. Pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 50c., lb. \$1.50, postpaid.

SYMME'S BLUE HUBBARD

1141 125 days. We call it Symmes Blue Hubbard, in honor of Mr. S.S. Symmes, a well-known market gardener who supplied us with our stock seed. A sport from the Hubbard. When first catalogued, it did not come true to color, but by careful selection each season, we hope to fix both color and type. The Symmes Blue Hubbard is entirely distinct from that well-known variety the Marblehead; resembles the Warded Hubbard in shape, though excelling it in flavor and dryness.

More productive than any of the strains of Hubbard. In 1909 we raised two tons from 75 hills, at the rate of 12 tons per acre. We have raised at the rate of 13 tons per acre. Thick meated, fine-grained, dry and very sweet; close your eyes while eating and you would think you were eating cake. Though the Delicious cannot be surpassed in quality, yet it is not the cropper nor is it as long a keeper as the Symmes Blue Hubbard. Our ninth introduction, all things considered, is our best. Pkt. 10c., oz. 30c., $\frac{1}{4}$ lb. \$1.00, lb. \$3.00, postpaid.

DES MOINES (Table Queen)

1128 55 days. A small dark green squash acorn-shaped nearly black, 5 to 6 inches long by 4 inches in diameter, weight 2 lbs. Vines vigorous, the ground will be literally covered with squashes of superior quality. Pkt. 10c., oz. 25c., $\frac{1}{4}$ lb. 50c., lb. \$1.75, postpaid.

GREGORY'S ORIGINAL HUBBARD

1140 120 days. For many years this has been the standard variety of Winter Squash in all sections of the country. The vines are of strong running growth and set the Squashes quite freely. Will develop specimens weighing from 25 to 30 pounds, of an oblong shape, with dark green skin. They keep splendidly, and the flesh is of excellent quality. We have kept up the original standard of this splendid sort, and frankly believe that our strain is the best. Pkt. 10c., $\frac{1}{4}$ oz. 15c., oz. 25c., $\frac{1}{4}$ lb. 50c., lb. \$1.75 postpaid.

Symmes Blue Hubbard Squash

GOLDEN HUBBARD

1144 110 days. A very distinct sort of the shape and general character of the Hubbard, but earlier to mature and of rich orange red color, instead of the dark olive green of the old Hubbard; flesh is a little deeper color. Pkt. 10c., oz. 20c., $\frac{1}{4}$ lb. 60c., lb. \$2.00, postpaid.

SATISFIED CUSTOMERS

Rockledge Farm, Pa.

Your seeds have never failed to prove themselves excellent under average conditions. We have several times tried the seeds from other houses and have always found our profit in price and close supply was over balanced by our loss in germination and poor plants as well as poor production of strong looking plants.

Yours sincerely,
MRS. EDELBERT S. GREGORY.

I am sending a photo of a collection that I entered at the Mount Compass Agricultural Show and secured first honors. You will see that the majority of them the "Gregory Squashes." There was nothing else to be compared with them and they caused a good deal of comment. I want some more this year and put up a better exhibit if possible. "For squashes, Gregory every time."

HORACE E. GREEN,
Tooperang, So. Australia.

SQUASHES — Continued

WARTED HUBBARD

1142 125 days. This variety of the Hubbard is a great favorite with the marketmen. It is very striking in appearance, and has been selected for years from exceptionally large specimens; it crops heavily. It grows to nearly double the average size of the common Hubbard. Our strain was obtained from a market gardener famous for his warty Hubbards. The warty knobs draw general attention. Pkt. 10c., 1 oz. 25c., $\frac{1}{4}$ lb. 65c., 1 lb. \$2.00, postpaid.

THE WARREN

1147 120 days. The Warren (of which we were the original introducers) has a shell generally harder and thicker than the Essex Hybrid, and the color is of a richer and deeper orange, while the quality is decidedly better. The Warren is now grown very extensively by marketmen. Pkt. 10c., $\frac{1}{2}$ oz. 20c., 1 oz. 30c., $\frac{1}{4}$ lb. \$1.00, 1 lb. \$2.75, postpaid.

Warted Hubbard Squash

Warren Squash

MAMMOTH YELLOW CHILI

1156 120 days. One of the Squashes that draw all eyes at the fairs. Size 20 by 16 inches, weight 50 to 150 lbs. Pkt. 10c., 1 oz. 20c., $\frac{1}{4}$ lb. 50c., 1 lb. \$1.50.

**GOLDEN SUMMER
STRAIGHTNECK SQUASH**

1158 Resembles our Giant Strickless Summer Crookneck only with a straight neck. Packs nicer in a box and isn't so apt to break open when handling. Market gardeners have been calling for such a squash for some time. Quality and characteristic the same as the Strickless. Price per pkt. 10c., $\frac{1}{2}$ oz. 15c., 1 oz. 25c., $\frac{1}{4}$ lb. 75c., 1 lb. \$2.00, postpaid.

**GREGORY'S FAMOUS
SQUASHES**

Squashes have been one of our leading specialties since we started in business, 77 years ago. We have introduced more sorts of real value than any other seedsman. Early and late, small and large kinds, sorts for every climate and every purpose have been evolved by us until the name Gregory has become a synonym for all that is best in Squashes. This collection would be just the thing to raise a fine assortment of Squashes for the fair. Symmes' Blue Hubbard, Gregory's Delicious, Warren, Hubbard, Golden Straight Neck Summer, and Victor.

VICTOR SQUASH

(SEE ILLUSTRATION)

1145 This squash, which we were the first to catalog, is of a rich orange-yellow color, generally with a hard shell thickly covered with warts. Thick meated, and quality excellent during its season, from September till December. About as early as the Marrow, a tremendous cropper. Where this squash is placed on exhibition it attracts the attention of every one on account of its rich color and attractive appearance. Pkt. 10c., 1 oz. 30c., $\frac{1}{4}$ lb. \$1.00, 1 lb. \$2.75, postpaid.

Victor Squash

TOMATOES

CULTURE. Sow the seed in March and April in the hotbed, or in pots in a sunny exposure in the house. If it is desired to make very healthy, stocky plants, they may be transplanted or repotted when about 2 or 3 inches high. When 5 or 6 inches high, if the ground has become warm, transplant to the open ground on a rainy or cloudy day if possible; if not, the young plants should be liberally watered and shaded from the hot sun. If it is desirable to have the fruit ripen as early as possible, in preference to a heavy crop, select rather light, poor soil and a sunny location. Trimming off the laterals, training to a stake and propagating by slips are believed by many to promote earliness. Set the plants 4 feet apart each way, upon mounds of earth to allow the foliage to open and let the sun in among the fruit. A cheap trellis, made by driving three stakes around the plants and encircling them with three or four barrel hoops, makes a very nice support for training them. One ounce of seed for about 1,200 plants.

BRIGHT RED SORTS

BONNY BEST

1161 130 days. An Extra Early Tomato. A splendid variety for forcing. They are uniform in size and shape, smooth, bright scarlet color. Plants are very productive. A good shipper. Pkt. 10c., $\frac{1}{2}$ oz. 20c., 1 oz. 35c., $\frac{1}{4}$ lb. \$1.00.

CHALK'S EARLY JEWEL

1162 130 days. Vines vigorous and very productive. Fruit deep scarlet red, nearly round, smooth, large size, of excellent quality, early, and continues through till frost. Productive. Pkt. 10c., $\frac{1}{2}$ oz. 20c., 1 oz. 35c.,

PONDEROSA

1163 150 days. (The Tomato Giant). This seems to be the favorite large-fruited variety. Vines are of strong growth. Some reach one pound in weight. Pkt. 10c., $\frac{1}{4}$ oz. 25c., 1 oz. 45c., $\frac{1}{4}$ lb. \$1.25.

Stone Tomato

STONE

1164 150 days. (SEE ILLUSTRATION). A standard late variety. It is very large and of bright scarlet color, spherical in shape, very smooth, ripens evenly to the stem, exceedingly solid and firm fleshed. Not subject to rot. Pkt. 10c., $\frac{1}{4}$ oz. 20c., 1 oz. 35c., $\frac{1}{4}$ lb. \$1.00.

BREAK O'DAY TOMATO

1165 This new tomato is the result of a cross between Marvane and Marglobe. It retains the vigor of vine and globe shape of the Marglobe combined with the earliness and solid fruit of the Earliana class 10 days earlier than Marglobe. Particularly popular in sections where the vines are staked and there is a demand for early fruit of good size and shape.

The fruit is as round and smooth as an apple, and deep orange red in color. The flesh is deep red and solid with thick walls and few seeds.

The vines are of a spreading habit of growth with large leaves and carry an abundance of fruit and resist blight well. Early and of the highest quality for table use. This variety will not do well on light dry soil but has proved to be most satisfactory when staked and grown on rather rich well watered ground. If you have not grown this variety it will pay you to try some this year.

Pkt. 15c., $\frac{1}{2}$ oz. 35c., 1 oz. 55c., $\frac{1}{4}$ lb. \$1.50.

BURBANK TOMATO

The following is Mr. Burbank's personal introductory claims:

"By far the earliest, smoothest, solidest, most productive and best of all early tomatoes; resists wilt and other tomato diseases better than most others."

1169 Color bright red, same as "Stone." Pkt. 15c., 2 pkts. 25c., $\frac{1}{2}$ oz. 65c., 1 oz. \$1.00.

NEW GLOBE

1170 125 days. A rose colored variety. Comes true to type. Round, splendid cropper, very early, unsurpassed in quality. Pkt. 10c., $\frac{1}{2}$ oz. 25c., 1 oz. 45c., $\frac{1}{4}$ lb. \$1.20.

JOHN BAER

1173 125 days. The introducer claims: "John Baer Tomato produces large, solid, shipping fruit in 30 days, 50 to 100 fruit to each plant; ripens evenly up to the stem, does not scald, blight or crack; bright red color, a delightful flavor, almost seedless, often ten fruits in a cluster, solid and meaty. Pkt. 10c., $\frac{1}{2}$ oz. 25c., 1 oz. 45c., $\frac{1}{4}$ lb. \$1.20.

(SEE ILLUSTRATION)

John Baer Tomato

LANGDON'S EARLIANA

1167 125 days. It was produced in the northern part of New York State, where the climate is cool and the seasons are rather short.

Wm. W. Kling, Sharon Springs, N. Y., writes Mr. Langdon: "Before I commenced this letter I made a careful inspection of yours and the others, side by side, and I am sure that more than half the fruit has been picked, a very large share of the remainder is ripe now, while my Jersey seed has not ripened more than one-third of its fruit and the vines do not show half the ripe fruit that yours do now." Pkt. 10c., $\frac{1}{2}$ oz. 40c., 1 oz. 75c., $\frac{1}{4}$ lb. \$2.50, postpaid.

DWARF CHAMPION

1182 150 days. Plant upright, fruit perfectly round and brilliant purple. Medium size borne in clusters. Pkt. 10c., $\frac{1}{2}$ oz. 20c., 1 oz. 35c., $\frac{1}{4}$ lb. \$1.00.

MARGLOBE TOMATO

1180 One of our most attractive second early tomatoes averaging larger than Bonny Best, a bright scarlet, solid meated, globe shape, showed no signs of rust and wilt, so it can be called a rust resisting variety. It is bound to be a valuable tomato for canning. Pkt. 15c., $\frac{1}{2}$ oz. 30c., 1 oz. 50c., $\frac{1}{4}$ lb. \$1.50, 1 lb. \$5.00, postpaid.

TURNIPS

CULTURE. For early use sow the small sort as soon as the ground can be worked in the spring, in drills 14 in. apart, the Ruta-Baga 30 inches. As the seed is very fine, it should be covered but slightly. Select light, if possible new, soil, and manure with ashes of phosphates. Should the young plants be troubled with insects a sprinkling of plaster will be found beneficial. Of the early varieties, thin the plants to 6 inches apart, and the Ruta-Baga to 1 foot. For fall and winter the early kinds should be sown from the middle of July to the middle of August, and the Ruta-Bagas from the middle of June to the first of July, using 1 1/4 lbs. of seed to the acre. "Swede" and "Ruta-Baga" being synonymous terms, the names below, given as they are generally used, will be readily understood. The English varieties are almost exclusively used for early planting for market. For fall and early winter use we recommend the English Turnips, while for late winter and spring the Ruta-Baga will prove the better keepers.

WHITE AND YELLOW TURNIPS

EXTRA EARLY WHITE MILAN

1190 40 days. Decidedly the earliest of the Turnip family. Very uniform in shape and superior in quality. 1 oz. 10c., 1/4 lb. 35c., 1 lb. \$1.00.

EXTRA EARLY PURPLE TOP MILAN

1192 45 days. Earliest Red Top Flat Turnip in cultivation, of the strap-leaved class, flat in shape and of excellent quality. 1 oz. 10c., 1/4 lb. 35c., 1 lb. \$1.00, post paid.

GOLDEN STONE

1194 50 days. If our customers want a fine yellow-fleshed variety that is not a Swede, try the Golden Stone. It is early, about the size of the White Egg, very attractive in color and of fine quality, oblong in shape. 1 oz. 10c., 1/4 lb. 25c., 1 lb. 75c.

WHITE EGG

1196 70 days. Six hundred bushels of this fine Turnip have been raised to the acre as a second crop, bringing the market gardener two hundred dollars. It is perfectly smooth, of a pure, clear white, growing half out of the ground. A very choice kind for table use, of excellent flavor, sweet and mild. It pulls clean from the ground, and is a first-rate keeper for winter use. Our stock is from headquarters. Comes to size for use just after Early Red Top. 1 oz. 10c., 1/4 lb. 25c., 1 lb. 75c., postpaid.

LONG WHITE COWHORN

1214 60 days. A very fine strain; matures quickly; carrot-shaped, fine and sweet. 1 oz. 10c., 1/4 lb. 25c., 1 lb. 75c., postpaid.

PURPLE TOP GLOBE

1200 70 days. Contesting the field, with Red Top, a thick, round, quick-growing white variety. 1 oz. 10c., 1/4 lb. 25c., 1 lb. 75c., postpaid.

IMPROVED YELLOW GLOBE

1204 70 days. Fine for family use or field culture. An American variety. Oz. 10c., 1/4 lb. 25c., 1 lb. 85c., postpaid.

GREEN TOP ABERDEEN

1206 Round, yellow-fleshed and firm. A good keeper. Oz. 10c., 1/4 lb. 25c., 1 lb. 75c., postpaid.

Ruta-Bagas or Swedish Turnips

LAING'S IMPROVED SWEDE

1218 One of the earliest; handsome round variety; fine for the table. Oz. 10c., 1/4 lb. 25c., 1 lb. 75c., post paid.

SWEET GERMAN OR RUSSIAN

1238 White, sweet, excellent; a first-rate keeper. Oz. 10c., 1/4 lb. 25c., 1 lb. 75c., postpaid.

AMERICAN RUTA-BAGA

1220 90 days. Farmers and gardeners have found this to be one of the best varieties for either marketing or raising for stock feeding. Slightly oblong or nearly globe shaped, yellow flesh solid texture of superior quality small top. Oz. 10c., 1/4 lb. 25c., 1 lb. 75c., postpaid.

Extra Early Purple Top Milan Turnip

ELEPHANT, OR MONARCH SWEDE TURNIP

1222 90 days. This excellent Swede Turnip is one of the heaviest cropping varieties in cultivation. It is of the tankard shape, so that it can be left thicker in the rows than other varieties. Tested side by side with leading kinds, it proved to be superior in some instances giving as much as 10 tons or more per acre. Oz. 10c., 1/4 lb. 25c., 1 lb. 75c., postpaid.

UNIVERSAL SWEDE

1225 90 days. The largest of the round, purple top, yellow-fleshed varieties. Is particularly hardy, withstanding both drought and mildew. A certain and heavy cropper. Oz. 10c., 1/4 lb. 25c., 1 lb. 75c., postpaid.

SKIRVING'S PURPLE TOP RUTA-BAGA

1226 Standard field variety; fine for family use; yellow fleshed. Oz. 10c., 1/4 lb. 25c., 1 lb. 75c., postpaid.

BUDLONG'S WHITE ROCK

1232 90 days. An American white Ruta-Baga, earlier and rounder than any other white variety, very sweet and of a mild flavor. Less apt to grow hollow. Oz. 10c., 1/4 lb. 25c., 1 lb. 75c., postpaid.

GREGORY SEEDS GIVE RESULTS

I am writing to inform you that three generations of my family have bought seed of Gregory covering a period of over 65 years which in my mind is some time to patronize one firm but we have always found seeds as represented and look forward each year for Gregory's catalogue.

F. M. HARDY, East Andover.

Last year was the first year I have bought seed of you and I want to say I had more tomatoes than I ever did—we have been gardening for 29 years. My neighbors used to have seed of yours when I was a girl.

MRS. D. J. STEPHENS, Herrin, Ill.

May 5, 1928.

S. Bristol

I planted some of your Golden Acre Cabbage last year, had a few left I did not sell, have some now in cellar May 10; keeping same for early cabbage.

RALPH CHOCORUA.

I am enclosing order for seed. Last year my neighbor recommended you to me, it was the first time we planted a garden. I am sure every seed came up and produced abundantly and was delicious. Will send for more seeds later.

G. M. MOODY, Southbridge.

GREGORY'S SELECTED FIELD SEEDS

Prices on All Field Seeds Subject to Change. Write for Prices.

TIMOTHY (HERDS' GRASS)

1243 Bloom in June and July. We sell only re-cleaned high grade stock. The fancy re-cleaned Timothy is the cheapest in the long run. We handle only one grade and that's the best. Weight 45 lbs. per bushel. Price: lb. 20c., postpaid; 15 lbs. \$1.50, 45 lbs. \$4.50, express not paid.

RED TOP (FANCY RE-CLEANED)

1246 Bloom in July. A finer grass than Timothy, used extensively as a permanent grass, one of the best for cattle feeding. Valuable for wet soils. When planted alone use 20-lb. of seed per acre. We handle only one grade, the fancy re-cleaned 36 lbs. per bushel. Price: lb. 30c., postpaid; 9 lbs. \$1.75, 36 lbs. \$6.50, express not paid.

RED CLOVER (MEDIUM RED)

1244 The principal clover used for the general use, a splendid variety to use in hay mixtures. Weight 60 lbs. per bushel. Price: lb. 30c., postpaid; 15 lbs. \$3.75, 60 lbs. \$12.00, express not paid.

ALSIKE CLOVER

1280 Finer and more leafy than Red Clover. The hardiest of all clovers. Grows to good height and makes a heavy yield of hay, valuable for low, wet land, resists cold and drought. Weight 60 lbs. per bushel. Price: lb. 35c., postpaid; 15 lbs. \$4.00, 60 lbs. \$13.00, express not paid.

WHITE CLOVER

1282 The variety used extensively for lawns and permanent pasture mixtures. Price: lb. 65c., postpaid. 15 lbs. \$8.00, express not paid.

ALFALFA OR LUCERNE

1260 It requires a deep fertile, well-drained soil rich in lime and free from weeds. The lack of any of these may be the cause of failure. Care should be taken in preparing the land. Has a greater feeding value than any of the clovers.

We handle the northern grown seed. Sow 30-lb. seed per acre. Price: lb. 30c., postpaid; 15 lbs. \$4.00, express not paid.

GRIMM ALFALFA

1261 Hardest and most productive of all varieties. Price: lb. 45c., postpaid; 15 lbs. \$5.50, express not paid.

BOKAHANA OR WHITE SWEET CLOVER

1266 A great soil builder and pasture crop. Grows on most all soils and does well when Red Clover and Alfalfa fail. Green sweet clover excellent feed for cattle. Weight 60 lbs. per bushel. Price: lb. 20c., postpaid; 15 lbs. \$1.80, 60 lbs. \$7.00, express not paid.

JAPANESE BUCKWHEAT

1258 The kernels of this Buckwheat are larger than the common kind; the straw is stouter and heavier. It is a very heavy cropper, and less apt to blight than other varieties. Pkt. 10c., lb. 20c., postpaid; by express, not prepaid; 12 lbs. (1 pk.) \$1.00, 1 bushel \$3.00, express not paid.

SAND, WINTER OR HAIRY VETCH

1264 (*Vicia Villosa*). One of the Pea-vine class of plants, exceedingly nutritious, surpassing even the several varieties of Clover. It will do better than other fodder crops on poor soil, while on good soil it makes a rank growth of 4 or 5 feet. It is a great favorite with cattle, and can be fed with safety to any stock. Perfectly hardy. Pkt. 10c., lb. 25c., 5 lbs. \$1.00, 10 lbs. \$1.80, express not paid.

KENTUCKY BLUE GRASS

1291 Perennial, flowers in June. Grows very luxuriantly producing excellent food for cattle. One of the most valuable grasses used in lawn mixture. Price: lb. 35c., 5 lbs. \$1.50, postpaid.

Mixture Recommended for Hay

TIMOTHY, 15 lbs. — Red Top, 9 lbs.
Red Clover 5 lbs.

MONTANA SWEDISH SELECT OATS

1248 It is one of the most productive sorts known, yielding 25 to 40 per cent more than the ordinary Swedish Select. These Oats are early and grow from 4 to 5 feet tall with heads averaging 8 to 12 inches long. A remarkable root development makes the Montana Swedish Select Oat a good drought resister. This makes it a very valuable variety for light soils.

Average weight per bushel is 35 to 40 lbs. Reports of the crops raised have been from 80 to 115 bushels per acre. Price: 4 lbs. 60c., postpaid; 8 lbs. 75c., 1 bu. \$1.75, 10 bu. \$15.00, express not paid.

WISCONSIN PEDIGREE NO. 7 OATS

1250 A new pedigree variety of oats originated at the Wisconsin Experiment Station.

DESCRIPTION. Wisconsin Pedigree No. 7 is a yellow oat, bright and shiny, with a very thin hull. In fact it is about all meat, very heavy and a great oat for feeding. It is very early. Indeed the earliest of all varieties, some 25 or 30, grown at the Wisconsin Station. This is of great importance as it escapes the rust so apt to hit oats just before harvest.

It has the stiffest straw and has stood up the best of all oats at the Wisconsin Station Farm. Price: 4 lbs. 60c., prepaid; 8 lbs. 75c., 1 bu. \$1.75, 10 bu. \$15.00, not prepaid.

DWARF ESSEX RAPE

1270 Essex Rape makes the best of pasturage for cattle, calves, sheep and swine. An average acre is sufficient for 10 to 15 sheep or lambs to bring them up to good condition without the help of grain in 70 days. Rape is more nutritious than Clover, and better for fattening. Wait till the plants have nearly matured before turning in the stock, which will be about two months from the time of sowing. If turned in earlier, the most economical way of feeding will be to make three divisions of the pasture, turning the stock from one to the other, thus giving the plants time to renew their growth. Price: lb. 20c., 3 lbs. by mail, 45c., 10 lbs. \$1.20, 25 lbs. \$2.75, express not paid.

JAPANESE MILLET

1272 (*Crus Galli*). (SEE ILLUSTRATION). The Crus Galli, straw-chopped, crushed, moistened and sprinkled with meal, is readily eaten by cattle and horses. The seed appears to equal in value corn meal for milk production, and is excellent for poultry. For green fodder, sow it at the rate of 27 pounds per acre.

Price: lb. 15c., 3 lbs. 40c., postpaid; 8¼ lbs. \$1.00, 35 lbs. \$2.90, express not paid.

PEARL MILLET OR MAND'S WONDER GRASS

1268 Will thrive in this country in any latitude that will produce Corn. It is an annual, with foliage resembling Corn leaves. When fully grown it is from 12 to 15 feet high, with numerous heads covered with seeds much relished by poultry. It is sweeter than Corn. Don't plant before ground is warm, May 15. Sow 6 pounds per acre in drills 3 feet apart, or broadcast at the rate of 30 pounds per acre. Pkt. 10c., ¼ lb. 10c., lb. 25c., postpaid; by express, not prepaid, 10 lbs. \$1.80.

PLEASE NOTICE

SEEDS DELIVERED FREE. All seeds offered on this page, from a packet up to and including two pounds, will be delivered to your door, postpaid.

Where express prices are given we do not pay transportation.

FIELD SEEDS — Continued

**CANADA FIELD PEAS AND OATS
FOR FODDER**

1269 Treat your Peas with Farmogerm and increase your yield of both Peas and Oats. These at the rate per acre of one bushel of Peas to one and one-half bushels of Oats, make very profitable fodder from June 25 to August 1, for cows and sheep. The Peas should be lightly ploughed in when sown and the Oats broadcasted and brushed in immediately afterward. Write for Prices.

**MAMMOTH RUSSIAN SUNFLOWER
AMERICAN GROWN**

1275 Valuable for poultry or vegetable oil. Sow thinly in drills 3 feet apart and thin to 2 feet apart in the row. Pkt. 10c., 1 lb. 25c., 3 lbs. 60c., by mail; 5 lbs. 75c., 10 lbs. \$1.40, express not paid.

WISCONSIN PEDIGREE BARLEY

1254 The greatest of all six-rowed barleys. Result of 12 years breeding work carried on by Prof. R.A. Moore of the Wisconsin College of Agriculture. It outyields all others, many yields of 50 bushels have been reported some as high as 75 bushels. Grows taller than others as high as five feet. 1 lb. 25c., postpaid, ¼ bushel \$1.00, 1 bushel \$2.65, express not paid.

MEDICINAL HERBS

Figure 1 denotes Seasoning, figure 2, Medicinal Herbs.

RAFIA

Natural Color. The quality of our Natural Rafia is excellent. Prices are much higher than in prewar times; it comes direct from the Madagascar plantations. 1 lb. 30c., 5 lbs. \$1.35. By mail. Prices subject to change.

GREGORY PAYS THE FREIGHT

See page 4

GRAFTING WAX

¼ lb. 15c., ½ lb. 25c., postpaid, 1 lb. 45c.

MARQUESS SPRING WHEAT

1156 This spring wheat has displaced all other varieties. Its a hard red spring wheat and brings the top prices. Grains are short, thick and very plump. A beardless variety with long heads has a very stiff strong straw of good length. Ripens early, ahead of all other spring varieties. 1 lb. 25c., postpaid, ¼ lb. \$1.25, 1 bushel \$3.50, express not paid.

ROSEN WINTER RYE

1290 This variety has taken the place of all others. 1 lb. 25c., postpaid; 14 lbs. \$1.00, 1 bushel \$3.00, express not paid

ORCHARD GRASS

1286 A coarse grass used for planting in orchards. 1 lb. 30c., 3 ½ lbs. \$1.00, postpaid; 14 lbs. \$3.00, express not paid.

HUNGARIAN

1288 Valuable for hay and also used as a soiling crop, yields as high as three tons per acre. It adapts itself to various conditions of soil and moisture. Sow one bushel per acre. 1 lb. 20c., postpaid; ¼ bushel \$1.00, 1 bushel \$3.50, express not paid.

GATER HIDE MULCH PAPER

What Mulch Paper Will Do

1. It will increase the crop yield.
2. It will enable you to harvest one to two weeks earlier.
3. It will eliminate practically all the back-breaking labor of weeding.
4. It will enable you to raise profitably many crops you could not raise without Mulch paper.

Type A. For annuals, 300 linear yards, 18-inch wide, \$3.50 per roll.

Type B. For perennials, 150 linear yards, 18-inch wide, \$3.50 per roll. Express not paid..

**All-Leather — DIRT-PROOF
SOFT AS KID — Extra Pliable**

Ideal gloves for men and women, made from select imported leather processed to render it amazingly soft and pliable, as well as durable. Permit almost barehand freedom with perfect comfort, yet insure complete protection from dirt, scratches, bruises, stains. Economical—outwear 6 pairs of fabric gloves and are useful the year round for Garden, Housework, Painting, Yard, Furnace, Garage, etc.

WASHABLE

Sizes for women: "Small," "Medium," "Large"—for men: "Medium," and "Large." Price, 75 cents a pair (2 pair, \$1.40), postpaid.

GROWELL POT

Composed of material entirely organic in nature. The pot is highly porous, permitting the plant roots to penetrate the walls. In transplanting both pot and plant are plunged into the soil saving the labor of the "knocking out" process. The pot itself gradually decomposes.

SHEEP'S HEAD SHEEP MANURE

For the Lawn. For the lawn there is nothing better than Sheep Manure, and its conveniences make it the logical fertilizer.

A few weeks will show surprising results.

Apply Sheep's Head Manure at the rate of one pound to every 10 square feet. Sprinkle quite well with a hose and let stand 24 hours before seeding.

It will also stimulate the growth of grass of an old lawn; in fact make a new lawn of it. One pound to every 30 square feet should be applied, two or three times during the season.

For the Garden. Its use on the vegetables garden will double the yield and insure better vegetables.

For making a liquid take one pound manure to five gallons of water which can be used daily if necessary.

Feed the Flowers. Flowers as well as vegetables need feeding. This is particularly true of Roses.

In potting plants, mix a handful with two pounds of soil.

For Small Fruits. It is very effective.

Price, 5 lbs. 30c., 10 lbs. 55c., 50 lbs. \$1.75, 100 lbs. \$3.00. We do not pay express or freight. Price by ton given on application.

Prices subject to change. [Cannot be sent by mail.

GREGORY'S FLOWER SEEDS

(NEW AND RECENT INTRODUCTIONS)

OUR DOUBLE PETUNIAS

Have never been surpassed in beauty, size, form or color, if ever equaled. Selection in crossing every flavor was made with the greatest care and thought and the results are a surprise. It would be impossible to describe at length the many varieties in form and color, pink, snowy white, violet, lavender, mauve, crimson plain and shaded with variegations in all these shades. Many flowers measure 5 inches across.

NEW CARNATION FLOWERED PETUNIA (DOUBLE MIXED)

This charming plant will find immediate favor with both florist and gardener. Erect habit; free blooming, fluted flower of all shades, pink predominating. Fine for potting and for mixed border. Pkt. 15c., 2 pkts. 25c.

PEONY FLOWERED PETUNIA (DOUBLE MIXED)

Will without doubt revolutionize the growing of petunias as the strain produces 75 per cent of very largest flowers in all colors. Delicate texture and highest percentage of germination. Flowers well set on plants. The finest strain in existence. Pkt. 25c., 2 pkts. 40c.

"MARVELOUS" DOUBLE PETUNIA

1898 (SEE ILLUSTRATION). We take a great pride in offering our new Double Petunia. They never have been surpassed in beauty, size, form or color, if ever equaled. Selection in crossing every flower was made with the greatest care and thought, and the results are a surprise even to ourselves.

It would be impossible to describe at length the many varieties in form and color, pink, snowy white, violet, lavender, mauve, crimson, plain and shaded with variegations in all these shades innumerable.

Many of the flowers measure 5 inches across, none less than 3. They are fluted, frilled, ruffled and pinked. The combination of color are exceedingly strange and beautiful. Proportion of double flowers is greater than any we have ever seen. Pkt. 20c., 2 pkts. 35c.

STAR OF CALIFORNIA PETUNIA

This is a magnificent new Petunia of the Balcony type, bred with extra long branches for window boxes and hanging baskets. The flowers are velvety violet with a touch of crimson starred with five pure white blotches. Flowers quite large and the effect in window boxes or hanging baskets is dazzling. Pkt. 20c., 3 pkts. 50c.

DOUBLE SWEET SCENTED NASTURTIUM GOLDEN GLEAN

The plant forms a vigorous large bush which throws out short runners averaging eighteen inches. The flowers commence to come as soon as the plant nears complete development and the time it is in full bloom the entire plant, including the runners, is a blaze of color. The large, golden-yellow flowers average two and one-half to three inches across. They are borne on erect, stiff stems six inches in length. Consequently the flowers stand well above the foliage, an arrangement which adds immeasurably to the showy appearance of the plant. An ordinary sized bouquet when allowed to remain in a room for a short period of time will fill the room with fragrance. Double scented Golden Glean Nasturtium is of the semi-trailing type. Pkt. 25c., 3 pkts. 65c.

Double Azalea Flowered
Carmine

TALL DOUBLE AZALEA FLOWERED CARMINEA

We highly recommend the Tall Azalea Flowered Carmine for cut flower on account of their long stems. A particularly useful variety, being a pink, with very striking markings. (SEE ILLUSTRATION). Pkt. 15c.

DWARF DOUBLE AZALEA FLOWERED CARMINEA

Can be described as a dwarf growing form of the Tall Double Carmine which is becoming so popular as a cut flower. Is recommended highly for pot culture. This plant is so floriferous that when it is full bloom it is nothing but flowers. It can be called an annual Azalea. Pkt. 15c.

GREGORY'S HONEST FLOWER SEEDS

We remind our friends that Flower Seeds, usually being very small, require extreme care in the preparation of the soil, depth of planting and protection from extreme cold and wet. Do not plant in open ground before the weather has become settled, usually about the middle of May. The soil should be made very fine and well enriched. It facilitates germination if a newspaper is spread over the surface after planting.

In our Flower Seed section, which follows, the letter (A), following the name of varieties indicates Annuals; (B), Biennials; (P), Perennials; C, in combination with any of

these letters, signifies Climbing Plants, thus: (AC) stands for Annual Climbers, etc.

Annuals grow, bloom and die the first year from seed. Biennials bloom the second year from seed, then die, though many, if sown early in the spring, will flower the first year. Perennials usually bloom the second year from seed and continue to grow and bloom for many years. Some will also bloom the first year if sown early.

All Flower Seeds are sent by Mail, postpaid, on receipt of Price.

ACHILLEA (P)

- 1402 *Ptarmica*, The Pearl (Sneezewort). (SEE ILLUSTRATION). Bears a profusion of large, double, white flowers in cluster from spring till frost, much prized for cutting, 2 feet. Pkt. .15
1403 *Mille folium fl. rubro*. Flowers rosy red, useful for borders, and valuable for cutting. Pkt. .15

ACONITUM. Monks' Hood (P)

- 1404 Grows well in any good soil, even when in the shade Pkt. .10

ACROCLINIUM. (A)

- 1405 *Roseum*, Double and Single, Mixed. 2 feet. Beautiful, everlasting flowers. In dry state valuable for winter decoration. Pkt. .10

AGERATUM (A)

- 1410 *Little Dorrit*, Azure Blue. 6 inches. A fine bedding plant covered with feathery blue flowers from early summer till frost. Valuable for pots. Pkt. .10
1011 *Blue Perfection*, 8 inches. Large heads of deep amethyst-blue flowers. $\frac{1}{4}$ oz. 40c. Pkt. .10

AGROSTEMMIA CORONARIA (P)

- 1412 Mixed. 1 foot. Beautiful, free-flowering perennial, producing throughout the season bright white and red flowers. Pkt. .10

ALYSSUM, SWEET (A)

Excellent for beds, edgings, etc. Fine for bouquets.

- 1414 *Little Gem*. 4 inches. Dwarf and compact, with plants a mass of white from spring until frost.
 $\frac{1}{4}$ oz. 25c., $\frac{1}{2}$ oz. 40c. Pkt. .10
1416 *White*. $\frac{1}{2}$ oz. 20c., 1 oz. 30c. Pkt. .10
1417 *Lilac Queen* (Compactum). Flowers open white turning to a pleasing shade of light lavender—6 inches. $\frac{1}{4}$ oz. 30c. Pkt. .10
1418 *Saxatile*. Compactum (Hardy) 1 foot. Beautiful Spring-blooming variety, with flowers of a deep, pure yellow. A good rock plant. $\frac{1}{4}$ oz. 40c. Pkt. .10

ABUTILON. Flowering Maple

1423. Mixed. Contains many new colors. Pkt. .15

ARABIS. Rock Cress (P)

- 1432 *Alpina*. 6 inches. For bedding and rocks. Blooming early, the white flowers make a pleasing contrast with *Alyssum saxatile*. $\frac{1}{4}$ oz. 25c. Pkt. .10

Achillea

ANCHUSA (P)

- 1424 *Italica grandiflora*. 5 feet. (Dropmore Variety) Hardy. May to August with intense blue Forget-Me-Not-like flowers, effective in beds. Pkt. .15
1424 $\frac{1}{2}$ *Blue Bird* (Annual). Lovely bright blue Forget-Me-Not flowers, 18 inches. Pkt. .15

ARCTOTIS (A)

- 1425 *African Daisy*. 2 feet. Large, pearly white flowers, mauve center with gold band. Pkt. .10

ARMERIA (P)

- 1426 *Formosa Hybridis*. 9 inches. Sea Pink. Flowers on slender stems, shades from flesh color, lilac, carmine rosy carmine to crimson. For beds and borders Pkt. .15

AMMOBIUM (Annual)

- 1430 *Alatum grandiflorum*. Large white flowering variety. $\frac{1}{4}$ oz. 25c. Pkt. .10

GREGORY'S SUPERB ASTERS

Sow seed early in the spring under glass, or in boxes in the house, transplanting into rich soil one foot apart.

The varieties we offer, were grown under ideal conditions and cannot be surpassed in size form and colorings.

ASTERMUM ASTERS

On account of their size have the appearance of *Chrysanthemums*. Earlier than *Crego Giant*.

- 1433 *White*. Purest white. Pkt. .10
1434 *Pink*. Lovely rose pink.10
1435 *Lavender*. A beautiful shade.10
1437 *Mixed*. All the above colors.10

GIANT MERITORIOUS PINK ASTER

The most beautiful flesh pink aster in cultivation, enormous in size with very long straight stems. It is a branching variety, grows about 2 $\frac{1}{2}$ feet high, very strong trunk, flower 4 $\frac{1}{2}$ inches across. It will produce 12 to 15 larger sized blooms than those ever appeared on the market. For commercial purpose there is no other flower that can duplicate it for size, color and stem. A mid-season variety. Pkt. 15c., 2 pkgs. 25c.

Astermum Aster

Meritorious Aster

GREGORY'S SUPERB LATE BRANCHING ASTERS

Of American origin, have become thoroughly acclimated, selected with the greatest care. Their extremely long stems make them ideal for cutting and bouquets. They fill in a gap between the early flowering varieties and Chrysanthemums.

1440 White	1443 ½	Scarlet
1441 Shell Pink	1444	Purple
1442 Lavender	1445	Crimson
1443 Rose Pink	1445.A	Mixed

Separate Colors or Mixed, Pkt. 10c., ½ oz. 35c., ¼ oz. 55c

CREGO'S GIANT COMET

The Crego Giant Comet Asters are admired by everyone who sees them. The flowers are immense in size, measuring from 4 to 6 inches across. Grow from 18 inches to 2 feet high, producing on each plant from 20 to 30 magnificent flowers on long stems.

1446 White	1449	Purple
1447 Shell Pink	1449.A	Mixed
1448 Lavender	1449.B	Cattleya Orchid (new)

Separate Colors or Mixed, Pkt. 10c., ½ oz. 35c., ¼ oz. 50c., ½ oz. 85c.

QUEEN OF THE MARKET ASTERS

Early flowering with branching habit. Very double

1450 Mixed	X2	Peach Blossom
1452 Deep Scarlet	X3	Scarlet
X1 White	X4	Lavender

Separate Colors or Mixed, Pkt. 10c., ½ oz. 35c., ¼ oz. 50c., ½ oz. 90c.

TRUFFAUT'S PEONY-FLOWERED PERFECTION ASTERS

Flowers perfect in form, size and fullness. Petals incurved. (See ILLUSTRATION).

1456 Snowy White	1460 Dark Blood red
1458 Fiery Scarlet	1464 Finest Mixed

Separate Colors or Mixed, Pkt. 10c., ½ oz. 35c., ¼ oz. 55c., ½ oz. 90c.

ROYAL ASTERS

An early flowering form of our superb Late Branching. Valuable for beds and borders. Their long stems make them excellent for bouquets.

1475 White	1478 Lavender
1476 Purple	1479 Deep Rose
1477 Shell Pink	1480 Mixed

Separate Colors or Mixed, Pkt. 10c., ½ oz. 65c., ¼ oz. \$1.15

KING (NEEDED TYPE)

These are mostly of upright habit (18 inches to 2 feet high). Flowers, large and double, petals quilled, making them distinct from all others and a very desirable class.

1494 Dark Blue	1498 Rose King
1495 Lavender	1499 White King
1496 Violet King	1500 Mixed
1497 Shell Pink	

Separate Colors or Mixed, Pkt. 15c., ½ oz. 35c., ¼ oz. 50c., ½ oz. 90c.

1480.A Pink Enchantress Aster. Produces immense flowers of a soft, delicate pink; are borne on strong, upright stems. Color resembles that of the popular "Pink Enchantress" Carnation. Pkt. .15

1483 Giant Victoria. Finest Mixed. An unrivaled and favorite class; flowers large perfectly double, of globular shape. Pkt. .15

1484 Heart of France. The best pure red aster ever introduced. Heart of France opens red as the purest ruby, deepens with age and retains its remarkable beauty to the very end.

The flowers are large and full with never a trace of hollow center. The plants are of branching type and very robust habit. The stems are long and strong and have very few side laterals. The plants begin to bloom quite early in the season and open fully with the mid-season varieties. Pkt. .15

1486 Vick's Peerless Yellow. Every flower will come a beautiful chrysanthemum yellow.

The flowers are remarkably full and ball shaped with centers deeply covered with curled and twisted florets.

The plants are branching type and very vigorous. It is not unusual to find a plant with from twenty to thirty good flowering stems sufficiently long and with flowers of ample size for extra fancy cut-flower purposes. Pkt. .20

Crego's Giant Comet Aster

1497 Mikado Pink Aster. The Mikado Pink belong to the Comet class. In color it is the most exquisite shade of shell pink. For mid-season pink this Aster is without a rival. Some plants produce a dozen long, strong, graceful stems, each crowned with flowers from 4¼ to 6 inches in diameter. Pkt. .10

1488 Mikado White Aster. The flowers of this improved Comet variety immense, measuring from 4 to 5 inches in diameter, the curled and twisted petals resembling hugh Chrysanthemums. Pkt. .10

EARLY AMERICAN BEAUTY ASTER

Commence blooming about the time the Royal Asters have passed their prime and before the King asters appear. Plants make a rounded bush 2½ to 3 feet tall. Flowers 4 to 5 inches across.

X5 Dark Lavender	X10 Peach Blossom
X6 Black Blue	X11 Purple
X7 Carmine	X12 Rose Pink
X8 Crimson	X13 White
X9 Lavender	X14 Mixed

Separate Colors or Mixed, Pkt. 15c., ½ oz. 45c., ¼ oz. 75c., ½ oz. \$1.45.

1510 Single Giants of California. Flowers 3 to 4 inches across, invaluable for decoration because of their graceful beauty, long stems 18 to 24 inches, and long life after cutting. Bloom from early in August. White, rose, purple, lilac, light blue. Mixed, Pkt. 15c., 2 pkts. 25c.

Truffaut's Peony-flowered Aster

Balloon Vine

Balsams

Canterbury Bells

Candytuft

1511 Aubrietia Hybrids (Perennial Rainbow Rock Cress). Suitable for rock gardens and edgings. Flowers mauve, rose, etc., height 1 foot.Pkt. .15

BALLOON VINE (AC)

1512 Ornamental climbing plant.Pkt. .10

BALSAMS (A) (SEE ILLUSTRATION)

Beautiful half-hardy annuals, from 1½ to 2 feet in height. Sow the seeds early in frames, and transplant to a well enriched border.

1514 Improved Camellia flowered. Finest mixed. Flowers very large and extra double.Pkt. .10

1516 Improved Camellia flowered. White Perfection. Large, double, snowy-white flowers. . .10

1518 Dwarf Spotted. Finest Mixed.10

1520 Double. Very fine. Mixed. Rich, effective and popular.10

1522 Double. Rose flowered. Very Double. . . .10

BLUE LACE FLOWER (SEE ILLUSTRATION)

1525 Didiscus Cœruleus. Very beautiful, blooms profusely from July till November. A very attractive shade of sky blue; excellent for cutting. Measuring 2 or 3 inches across, plants 18 inches high and have as many as 50 flowers open at one time.Pkt. .15

CALENDULA. Tagetes (A)

CALENDULA OR POT MARIGOLDS, 1 FOOT

1773 Camp fire. Blossoms flat, larger than other varieties, brilliant orange with a scarlet sheen and full yellow center.Pkt. .20

1774 Orange King. (Orange Red Double).10

1775 Lemon Queen. (Lemon Yellow Double). . . .10

1776 Balls Orange. Very large, specially selected for winter flowering. . . . ¼ oz. 60c., ½ oz. \$1.00 .15

1777 Meteor. Creamy White, striped Orange. . . .10

1777A "The Ball." Rich Golden Orange light center, very large and double. Showy. Fine cutting. . .10

CANARY BIRD FLOWER (AC)

1534 15 feet. Ornamental creeper, beautiful yellow-fringed flowers finely divided foliage.Pkt. .10

PERENNIAL CANDYTUFT

1540 Gibraltarica. 6-inch Violet rose in large clusters. ⅛ oz. 40c., Pkt. .10

1609 CHILDI. Chinese Woodflower, 2 to 3 feet tall with massive crimson-scarlet heads resembling balls of wool. ¼ oz. 40c. .15

COREOPSIS. Callipsis (A)

One of the most showy of all annuals.

1610 Radiata, "Tiger Star." Dark Brown and Golden Yellow. Continuous bloomer. The leaflets of each flower are twisted like those of the Cactus Dahlia. Toward the center they show a vivid reddish brown, outer part golden yellow. 8 inches forms compact bushes. . .15

1614 Golden Wave. Very bushy and compact. A mass of golden color from July to October. Flowers 2 inches across, with small dark centers.10

1616 Mixed. Yellow and brown and velvety brown. . . 1 oz. 35c. .10

1618 Perennial Coreopsis lanceolata. Perpetual Golden Coreopsis, free blooming, lasting throughout the summer and fall. Fine for cutting. . . . ¼ oz. 50c. .10

1619 Coreopsis Grand. Fl. Pl. (P). A reselected strain of the semi-double sent out a few years ago. This will prove to be a valuable flower for cutting, it produces a very large percentage of semi-doubles that are much more attractive than the singles. Pkt. .15

COSMIDUM BURRIDGEANUM

1626 Yellow Daisy. Beautiful hardy annuals similar to Coreopsis. Excellent for cutting, of easy culture, succeeding anywhere. Blooms all summer. . . . Pkt. .10

CYNOGLOSSUM (Chinese Forget-me-not)

1628 Amabile. Early flowering annual producing large sprays of rich blue forget-me-not flowers. Excellent for cutting. Pkt. .15

COSMOS (A)

Gregory's Extra Early Mammoth Single. Flowers usually from 4 to 5 inches across.

Autumn flowering plant, beautiful foliage, 6 to 8 feet high, covered with very large, single, Daisy-like flowers. in shades of rose, purple, and white. Fine for cutting. Sow in April in pots, or hotbed, and transplant 1 foot apart.

1620 A White. ¼ oz. 30c., ½ oz. 50c. .10

1620 B Crimson. ¼ oz. 30c., ½ oz. 50c. .10

1620 C Pink. ¼ oz. 30c., ½ oz. 50c. .10

1621 Mixed. ¼ oz. 25c., ½ oz. 40c. .10

Gregory's Late Mammoth Flowers. Blooms two weeks later than the early flowering.

1622 Mixed. All Colors.

1622 A Giant Crimson.

1622 B Lady Lenox. Pure White.

1622 C Lady Lenox. Shell Pink.

Any of the above. ¼ oz. 20c., ½ oz. 30c. .10

Coreopsis Grandiflora
Flore PlenoDouble Crested
Cosmos

GREGORY'S Extra Early Double Crested Cosmos

An extra early strain of the Double Crested Cosmos that is just as beautiful as the late and comes into flower as early as the Extra Early Single.

- 1623 Pink Beauty. (Peach Blossom).
 $\frac{1}{4}$ oz. 40c., $\frac{1}{2}$ oz. 75c., Pkt. .15
 1623-A Crimson King. (Carnelia).
 $\frac{1}{4}$ oz. 40c., $\frac{1}{2}$ oz. 75c., Pkt. .15
 1623-B White Queen (Whirlwind).
 $\frac{1}{4}$ oz. 40c., $\frac{1}{2}$ oz. 75c., Pkt. .15
 1623-C Finest Mixed, $\frac{1}{4}$ oz. 35c., $\frac{1}{2}$ oz. 65c., Pkt. .10

Gregory's Double Crested Late Flowering

- 1625 Pink Beauty. $\frac{1}{4}$ oz. 85c., Pkt. .15
 1625-A White Queen $\frac{1}{4}$ oz. 85c., Pkt. .15
 1625-B Crimson King $\frac{1}{4}$ oz. 85c., Pkt. .15
 1625-C All Colors Mixed $\frac{1}{4}$ oz. 75c., Pkt. .15

THE CARDINAL CLIMBER

1531 Beautiful climber. Leaves resemble those of the Japanese Maple, blossoms are borne in clusters, flowers cardinal red about $1\frac{1}{2}$ inches in diameter, rapid grower, vines branch freely, quickly covering a large space to the height of 15 feet or more. Delights in a warm rich soil. Seeds may be started indoors in April and transplanted outdoors when weather permits.

Pkt. 25c., 5 pkts. \$1.00

DAHLIA (P)

A favorite for autumn flowering blooming the first season from seed if started early. The flowers are so symmetrical and perfect, and the range of colors so wide and varied that they will always be popular where display is wanted.

Seed may be sown in spring in open ground after danger of frost is over, but for best results sow in shallow pans at any time from March to June, and transplant the seedlings to small pots. These plants will produce tubers which should be taken up in the fall and replanted the following spring.

- 1630 Single. Varieties Mixed. Handsome bedding plants for cutting. Pkt. .10
 1632 Single, Perfection or Giant. Variety of colors .10
 1634 Pompon. Choice mixed. .15
 1635 Decorative. Finest mixed. .25
 1636 Double Show. Finest mixed. .20
 1638 Double Mixed. .10
 1640 (Cactus Dahlia) Juarez Mixed. Pkt. .20

DATURA (P)

Sweet-scented, trumpet-shaped flowers. Remove roots to cellar in autumn.

- 1642 Wright's. White, bordered lilac. Pkt. .10

SHASTA DAISY (P) (See Illustration)

1644 A creation of Mr. Luther Burbank. Perfectly hardy. Flowers very large, growing on long stems, white petals and a yellow center. Pkt. .10

DOUBLE DAISY (Bellis Perennis Monstrosa)

Charming plants for edgings and dwarf beds, blooming the first year from seed. Thrive well in shady places.

- 1646 Snowball. Large flowered, pure white and extremely double. $\frac{1}{4}$ oz. \$1.50 .15
 1648 "Longfellow," a dark rose. $\frac{1}{4}$ oz. \$1.50 .15
 1650 Monstrosa Giant Double. Mixed.15

Dimorphotheca

Delphinium

DELPHINIUM. Perennia Larkspur. (See cut)

Brilliant flower spikes are striking effective in the perennial borders or among shrubs. Will bloom almost continually if flowers are kept cut.

- 1651 Bodger's Hollyhock Strain. Light shades, Pkt. .25
 1651 A Wrexham Hollyhock Strain. A fancy blending of light and dark strains. Pkt. .25
 1651 B Chinese Butterfly. 18 inches. Gentian blue, produced freely above feathery foliage. A perennial, if sown early will bloom in August. Pkt. .15
 1651 C Chinese Album. 2 feet. Pure white. Pkt. .15
 1652 Formosum. Flowers 2 inches, brilliant dark blue. Spikes 8 to 10 inches. Pkt. .15
 1654 Elatum. Blue, 2 feet.10
 1656 Grandiflorum. Fine Mixed.15
 1657 Cardinale. Scarlet, 2 feet.15
 1658 Formosum. Light blue.15

DIMORPHOTHECA

- 1660 Autantiaca. African Orange Daisy. A rare showy annual. Grows 12 to 15 inches high, free flowering. Flowers $2\frac{1}{4}$ to $2\frac{1}{2}$ inches in diameter, a glossy, rich orange gold. Adapted for borders. Pkt. .10
 1661 Aurantiaca Hybrids. Among them a large range of colors, from purest white to deep sulphur yellow and from lemon and reddish tints to deep orange salmon. Pkt. .10

ESCHSCHOLTZIA. California Poppy (A)

A very showy plant, about 1 foot high blooming June to September. Produces a brilliant effect at a distance.

1664 Crimson flowering. (Burbank's New California Poppy). Flowers very large, of a clear, rosy crimson producing a brilliant effect when grown in large beds, Pkt. .10

- 1666 New Giant. "The Golden West." Flowers very large, over-lapping petals, delicately waved. In some the orange blotch almost suffuses the whole flower, in others it runs into the yellow in fine penciled lines. oz. 50c. Pkt. .10
 1668 Finest Mixed. 1 oz. 50c. .10

FORGET-ME-NOT. Myostis (P)

A very pretty, little, hardy perennial, about 6 inches high. Will thrive best in a cool, moist situation, and is well adapted for bedding or rockwork.

- 1682 Distinction. Dwarf, blooms two months from seed. Pkt. .10
 1683 Blue Perfection. The standard. $\frac{1}{4}$ oz. \$1.00 .15
 1684 "Jewel." Brilliant sky blue.10
 1685 Late Flowering Victoria. Blossoms after all other varieties have passed, the beautiful blue flowers completely covering the plants. $\frac{1}{8}$ oz. 50c. .10

Cosmos

Double Daisy

Shasta Daisy

EUPHORBIA (A)

1676 *Variegata*. (Snow on the Mountain). Leaves edged with pure white. 1 oz. 50c. Pkt. .10

FEVERFEW. Matricaria (P)

1680 *Double Dwarf*. Flowers large, creamy colored, very double. 1/8 oz. 30c. .10

FOXGLOVE. Digitalis (B)

1686 *Large Flowering, Spotted and Mixed*. Tall spikes, flowers of purple, rose, white and yellow. .10

1687 *Monstrosa*. Producing long spikes of very large flowers in great variety of colors, many beautifully spotted. 1/4 oz. 50c. .10

FUCHSIA (A)

Elegant flowering plants of easy culture, in pots for parlor decoration or in garden. In the garden they require slightly shaded situation. Soil should be rich.

1688 *Finest Varieties. Mixed*.15

GAILLARDIA

(SEE ILLUSTRATION)

One of the most showy and brilliant of garden flowers; fine for bedding and cutting, producing large flowers of rich shades from early summer till November.

1688a *The Dazzler*. A restricted strain of a giant perennial Gaillardia which is now becoming very popular. Flowers very large, with dark rich red with a bright orange tip at the end of each petal, making it a very attractive flower for florists and table decoration. This strain has been selected for the length and strength of the stems. By far the largest and most attractive Giant Red Gaillardia.15

1689 *Portola Hybrid*. A superb new strain bearing flowers of very large size, the color ranging through shades of bronzy red, with the characteristics golden-tipped petalage and robust vigor of the well known Portola variety. A splendid cut flower. Pkt. 15c., 2 pkts. 25c.

1690 *Single, Grand. Fine Mixed*.10

1692 *Picta Lorenziana, Double*. Of various shades, orange, claret, amaranth, etc.10

1693 *Grandiflora Compacta*. Hardy, forming bushy plants 12 to 15 inches high. Flowers rich, varied as those of the tall sorts.10

GERANIUM (A)

1694 *California Giant Flowering Hybrids*. All shades of scarlet, crimson, rose, pink, salmon, cream, veined pink, blush, pure snowy white and all the new aureole types, with lovely rings and white eyes. If started early in the house will make flowering plants the first year.20

GLOBE AMARANTH (A)

2 feet high. Flowers will retain their beauty if gathered and dried as soon as they are open.

1696 *Variegated, Mixed*. Pkt. .10.

GODETIA (A)

1698 *Finest. Mixed*. 1-foot attractive annuals, of beautiful satiny texture. 1/4 oz. 20c. .10

VALUABLE SUGGESTIONS

DERRISOL. Protects your crops from injury by lice. See page 48.

IMP SOAP. Use on rose bushes to destroy lice and rose beetles, does not discolor the leaves. See page 48.

1706 *Baby's Breath*1716 *Hollyhocks***GYPSOPHILA (P)**

1705 *Gypsophila paniculata* fl. pl. Double. White. Surpassing No. 1706.20

1706 *Paniculata*. (Baby's Breath). Hardy plants, 1 1/2 feet high, flowering profusely white sprays.20

1706A *Elegans Grandiflora* (Annual). Pure white. .10

1707 *Muralis*. 6 inches. Rose colored flower suitable for rockwork.15

1707A. *Carminia*. Bright Carmine rose, 10 inches, annual.15

HELICHRYSUM (A)

STRAW FLOWER, 2 to 3 ft.

Ornamental; desirable for winter bouquets; they retain their form and color for years if gathered and dried when first open.

1670 *Fire Ball*

1671A *Rose Queen*

1670A *Golden Ball*

1672 *Silver Ball*

1671 *Salmon Queen*

1671A *Violet Queen*

1673 *Mixed*

Separate Colors or Mixed, 1/4 oz. 35c., pkt.10

HELIOTROPE (A)

1708 *Mixed*. Well-known, delicious fragrant plants, excellent for bedding purposes or pot culture.10

1709 *New Mammoth*. Robust and branching, producing immense umbels of light and deep violet flowers of delicious fragrance.15

HESPERIS MATRONALIS (Sweet Rocket)

Flower early in the spring. Very fragrant. 2 to 3 feet.

1712 *Finest Mixed. Double*.10

HOLLYHOCKS. (P) 6 to 8 feet

Seeds should be sown in June or July, to have flowering plants the next summer, or if sown in the house early in the spring will bloom the first year.

1716 *Chater's Improved Double, Mixed*. (SEE ILLUSTRATION)10

1718 *Chater's Snow White Double*.15

1720 *Chater's Purple, Double*.15

1722 *Tall Double. Mixed*.10

1724 *Annual Everblooming*. A new variety, blooming the first year from the seed. If sown in March will commence blooming in July, branch freely and flower in great profusion until frost. The flowers are single and double, in all shades.15

1725 *Double Allegheny*. Fairly double with fringed petals; a variety of colorings.10

1726 *Single Mixed*. All colors.10

Gaillardia

Foxglove

Helichrysum Monstrosum
Rose Queen

HUMULUS (AC)

- 1727 Japonicus.** (Japan Hop). Rapid grower, making a dense covering. 1 oz. 50c., Pkt. .10
1728 Variegatis. Beautifully blotched with silvery white, yellowish green and dark green.10

IPOMEA (AC)

- 1734 Bona Nox.** (Evening Glory). Very beautiful and popular climber, with fine foliage and flowers of brilliant hues, choosing the evening for its time of blooming. Flowers white, deliciously fragrant, very large. Soak seed in warm water several hours before planting.10
1735 Heavenly Blue. (Rubro-Cœrulea). 15 feet. Beautiful large sky-blue flowers.10
1736 New Double Ipomea Rose Marie. Early flowering double form of Ipomea. Flowers are a beautiful shade of deep rose of double and semi-double form. We predict Rose Marie will become as popular as Ipomea. Heavenly Blue.15

KOCHIA (A) (Summer Cypress)

- 1740 Tricophylla.** Globe-like form, the stems being covered with delicate light green foliage. In the fall the ends of the shoots are thickly set with small, bright scarlet flowers, plants like balls of fire. . . . ¼ oz. 35c. .10

KUDZU VINE**Jack and the Bean Stalk (PC)**

- 1742** Lasts for years, grows 40 feet the first year from seed. Its rapid growth, dense foliage, makes it invaluable for covering porches, etc. The clusters of purple flowers are 7 inches long and deliciously fragrant. . . .10

LARKSPUR (A)

Beautiful, hardy annuals, producing dense spikes.

- 1744 White Spire.** Dazzling, pure white double larkspur with upright delphinium habit of the La France. Superior to all other white larkspur as a cut florist flower. Pkt. 20c., 3 for .50
1745 La France. The most striking color. More vigorous and taller than other shades; resistant from mildew. Flower double of a salmon pink. . . . Pkt. 20c., 3 for .50
1745A Larkspur Los Angeles. We have a rich salmon overlaid with a brilliant and pleasing rose. Type of growth similar to La France but the foliage is a much darker green. Pkt. 20c., 3 for .50
1746 Stock flowered. Tall-branching. Finest Mixed. Pkt. .10
1748 Double. Finest Mixed. Very beautiful long spikes of flowers in the most delicate colors. . . .10
1750 Giant Hyacinth flowered. An improved type. 3 feet.10
1752 Tall Rocket. Double. Mixed. 2 feet. Very showy.10
1754 Dwarf Rocker. Double. Mixed. 1 foot. .10

LOBELLA (A)

Beautiful, profuse blossoming plants; fine for hanging baskets, while the compact sorts, forming little moulds of bloom, are splendid for beds, edgings, etc.

- 1760 Ernius Mixed.** Blue, white, blue and white. .10
1762 Compacta. Crystal Place. Dark blue, ½ oz. 50c. .10
1764 Cardinalis. (P) (Cardinal Flower). Hardy perennial, with long spikes of brilliant scarlet flowers. .10

Lupins

Marigold

LUPINS (P)

- 1766 Annual Mixed.** Ornamental, producing graceful spikes of various colored pea-shaped flowers Pkt. .10
1767 Perennial Sorts. Finest Mixed.10

MARVEL OF PERU. Mirabilis.**2 ft. Four O'Clock (A)**

- 1770** If plants are set 1 foot apart, will make a fine summer hedge. 1 oz. 30c. .10

MARIGOLD Tagetes (A)

Showy, 1 to 3 feet high, adapted to garden culture, blooming profusely.

- 1777B African Orange.** All Double. We are pleased to announce, however, that we have a strain of marigold which has come one hundred per cent double for the past two years. So it is offered to the trade under the name All-double. Pkt. 20c., 3 for .50
1777C African Lemon. All double. We are now pleased to announce that the Lemon color in the All-double strain has come ninety-five per cent true. Popular cut flower. Pkt. .20

DOUBLE AFRICAN, 3 FEET

- 1778 Giant Orange.** Enormous, very double.15
1779 Giant Lemon. A striking shade.15
1780 Eldorado Mixture. Enormous flower.15

FRENCH, 1 FOOT

- 1781 Legion of Honor.** Single flower, golden yellow spotted velvety crimson.10
1782 Double Dwarf. Mixed.10
1783 Minature Golden Yellow. 9 inches.10

MIGNONETTE 6 to 8 INCHES (A)

Booms throughout the season. Sow from middle of April to middle of June. Most fragrant on poor soil.

- 1790 Goliath.** Spikes 7 inches long. . . . ¼ oz. 50c. .10
1791 MYLES' Hybrid Spiral. Plant dwarf and branching flowers white, very fragrant.10
1794 Orange Queen. Ideal Mignonette. Large spikes. Flowers of a beautiful orange color, very fragrant. .10
1796 Machet. Plants dwarf and vigorous. Fine for pot culture and valuable for borders. . . . ¼ oz. 30c. .10
1798 Allen's Defiance. Spikes larger than any other variety; retains fragrance until bud opens, 1 oz. 75c. .10
1800 Sweet. ½ oz. 20c., 1 oz. 35c. .10

Larkspur La France

Larkspur

Mignonette

Kochia

NEMOPHILA (A) (Baby Blue Eyes)

Free-flowering dwarf hardy annuals, blooms all summer. Cup shaped flowers of many bright colors, blue shades are very fascinating. Plant in moist soil, partial shade being favorable. 1 foot.

Improved Michigan Seed Drills

These Prices are by Express or Freight at Purchaser's Expense

PRICES SUBJECT TO CHANGE

When a drill is wanted, order the Michigan Seed Drill (Improved). If both drill and cultivator are needed, order the combined Michigan Seed Drill and Hand Cultivator. (See engravings).

In the course of our long farming experience we have used on our farm many kinds of seed drills. No machine was suited to our needs until we purchased the "Michigan." We heartily recommend it to our customers. Some of its excellent characteristics: The feed is not a modification of any of those already in use, but is an entirely new device, and will sow Beans, Corn, Peas, Onion,

Turnip, Cabbage, Parsnip, Carrot, Salsify, Beet, Mange-Wurzel, Prickly Spinach. The seeds in sowing are in full view, and if there is any failure to drop from the clogging of the opening or any other reason, it will instantly be detected.

A circular of spare parts, with prices, will be inclosed in every drill.

No. 1. Michigan Seed Drill Improved, \$11.50.

No. 7. Combined Michigan Seed Drill and Hand Cultivator, \$14.50.

No. 10. Hill and Drill Seeder, \$12.50.

No. 12. Combined Hill and Drill Seeder, Single and Double Wheel Cultivator, Hoe and Plow, \$15.50.

No. 4 COMBINED SINGLE AND DOUBLE WHEEL CULTIVATOR, HOE AND PLOW, \$8.50.

INSECTICIDES, PLANT FOODS, ETC.

NOT MAILABLE—PRICES SUBJECT TO CHANGE

Ansiel Collodial Sulphur. The most effective sulphur fungicide known. We recommend it for a spray for diseases such as rusts and mildews that are injurious to Roses, Hollyhocks, Phlox, Snaps, Evergreens, Carnations and stem rot of stocks. Destroys Red Mite or Red spider. Home Garden Tubes, 75c., postpaid; 3-lb. Bottles \$1.65, postpaid; 6-lb. Bottle \$3.30, postpaid; 25-lbs. \$6.75, express not paid.

Arsenate of Lead, (Powdered). One pound makes from 15 to 25 gallons of solution. Price, ½ lb. 25c., 1 lb. 35c., 4 lbs. \$1.20, 8 lbs. \$2.00, 24 lbs. \$5.75, by express, not paid.

Bordeaux Mixture, Powdered. For blight, mildew, rust, etc. It has all the advantages of paste, with double the strength. Goes twice as far. Used for dry dusting or spraying. Dilute 1 pound to about 6 gallons of water for 3-3-50 formula.

VARIETIES OF FLOWERS

ILLUSTRATED ON LAST COVER PAGE

1 PENTSETEMON SENSATION IMPROVED

An excellent mixture of an improved strain of French Hybrids. A tall grower and very floriferous; flowers large and well marked; very showy. Gloxinia like flower of varying colors. Perennial, excellent for cutting purposes, as a bedding plant ranks with Petunia, Phlox, etc. Grows 30 inches high. Pkt. 15c.

2 NEW BALCONY PETUNIA STAR OF CALIFORNIA

This is a magnificent new Petunia of the Balcony type, bred with extra long branches for window boxes and hanging baskets. The flowers are velvety violet with a touch of crimson starred with five pure white blotches. Flowers quite large and the effect in window boxes or hanging baskets is dazzling. Pkt. 20 c, 3 pkts. 50c.

3 NEW MARIGOLD AFRICAN ORANGE ALL-DOUBLE

Any strain of African Marigold that will come fifty per cent double is considered good — sixty is excellent. We are pleased to announce, however, that we have a strain of marigold which has come one hundred per cent double for the past two years. So it is offered to the trade under the name All-double. Pkt. 20c., 3 pkts. 50c.

4 NEW POPPY SHIRLEY DOUBLE BEGONIA FLOWERED SWEET BRIAR

One of the most popular colors also a best seller in Shirley poppies. We now offer this most beautiful color in a Begonia Flowered Double type which is named Sweet Briar. A delightful shade of deep rose pink. The flowers are full double, resembling a very large double begonia. Price per pkt. 20c., 3 pkts. 50c.

5 ASTER CALIFORNIA GIANT SUNSHINE MIXED

A supremely beautiful race of Asters. A direct cross between California Giants and the dwarf Sunshine type. The plants grow 3 feet high and bear blossoms 5 to 6 inches across on long stiff stems. In color the lovely dual-tone effect beggars description. The disk is a lovely light yellow and the encircling guard petals are varying shades of pink, rose, blue and lavender. Price per pkt. 25c., 3 pkts. 60c.

6 NEW AFRICAN MARIGOLD LEMON ALL-DOUBLE

In 1931 we listed Marigold African Orange All Double. Those plants in our garden did not produce any singles. They were profuse bloomers. When placed in a vase in the house, if the water is changed each day they will last ten days. We are now pleased to announce that this season we have the Lemon color in the All-double strain. The Lemon All-double has come ninety-five per cent true. These varieties will take their places among the popular cut flowers. Price per pkt. 20c.

7 ASTER CALIFORNIA GIANT PEONY FLOWERED

Enormous flowers growing three feet high very double on strong stems in a variety of color in delicate shades mixed. Price per pkt. 15c.

8 NEW ANNUAL CANTERBURY BELLS

Seed planted in February blooms in July. Many years of careful selection have at last given us Our Annual Canterbury Bell which blooms from seed in six months. It should be possible to have this beautiful flower in bloom at almost any time in the year. Plant grows from two to two and a half feet tall, each plant having from six to eight spikes of bloom. We offer this in Mixture containing the following colors: dark blue, light blue, pink, rose and white. Price per pkt. 20c, 3 pkts. 50c.

9 CALENDULA RADIO

The Radio is a globular type with beautifully quilled petals, color a deep yellow. The flowers being different stand out wonderfully well. Flowers, borne on long stout stems. There is no question but that the Radio Calendula will become very popular with the florist trade. It is suitable for forcing. No flower garden will be complete without some of these flowers. Pkt. 20c., ¼ oz. \$1.00.

10 SCABIOSA GIANT MIXED

Easily grown showy annuals, delights in a sunny location grows from two to three feet high. Flowers double and in a great variety of color; black, red, rose, sulphur, yellow, peach blossom, white and salmon rose. Very desirable for cut flowers, sweet scented. Price per pkt. 15c.
